The Board of Regents created a task force to review alignment of higher education institutions in Kansas as an objective of the Regents Strategic Goal One on alignment. The Task Force, that includes our Student Government President, Tyler Thompson, is to review and make recommendations regarding Board policies related to transfer and articulation; develop an inventory and assess the efficacy of existing alignment arrangements among higher education institutions; make recommendations for enhancing transfer and articulation of courses across the postsecondary educational system; and report its findings to the Board in April 2011. Gary Alexander, the Board Office Vice-President of Academic Affairs developed the “Transfer and Articulation Process Discussion” document and asked the Council of Faculty Senate Presidents to provide him with a report in response to the document and “Core Outcomes Project.”
