# SCIENCE HALL WORK BEGINS SOON AT

## HAYS ON NEW BUILDING

Hays, Kanas., Jan. 23—Contract for the new science hall at the State Teachers College here was given to the Gurtler Construction Company of Topeka, for \$116,104 last week. Work will be started at once and the building is to be completed about December 1, of this year.

All the plumbing, heating and electrical work is covered by a \$10,641 contract to the Salina Plumbing Company.

An estimate of the size of the building can be obtained from the amount of battleship linoleum to be laid in it. The floors will require some \$6,000 worth of the covering.

When a picture of the new building was shown in the Topeka Capital recently, Charles D. Cuthbert, state architect who designed the structure, expressed the opinion that the hall will be the most up-to-date science building in the state.
