     1. Concurrent enrollment: Work is in progress toward finalizing a proposal; and this council asserted the need to maintain contact with faculty from a variety of institutions throughout the state—universities and community colleges.
     2. Tuition Assistance: This issue has continued to receive discussion and consideration for an acceptable, flexible policy based on an individual university’s needs.
   
   - Kansas Board of Regents is investigating the retirement program, wanting to ensure that funding is safe and that companies offering the programs remain solid. In addition, regents expressed concern about raising salaries while also emphasizing the imminent need for building maintenance.

One benefit, for example, includes the role-based access aspect of the new portals, allowing a user access to specific information that is applicable for that person—like a faculty member having access to advisor-related information.

4. Reports from Liaisons
4a. Instructional Technology Policy Advisory Committee:
   • David Schmidt reported that this committee discussed the role of laptops on campus, asking questions like whether or not laptops really make a difference for education and the educational experience. He suggested that FHSU might have a pilot run for a variety of classes first before making a decision. Provost Gould added that he has not found any evidence to suggest that laptops enhance education.

4f. Report from AAUP Liaison: Douglas Drabkin
   • Senator Drabkin reported that a meeting concerning fiscal matters will be held on December 14. He also noted two issues discussed at the tenure forum:
     1. Standards: each department should have a say about standards for its tenure-track faculty and that they should not be judged by standards that are not at the department level.
     2. Constant Growth: does a tenure-track faculty member need to show constant growth? The answer is: no. Also, how does one really define growth?

4g. Student Government: Robert Howell
   • SGA expressed its concerns about getting more students to go to athletic events.

4h. General Education: Martha Holmes
   • Members are reviewing syllabi for general education courses and should have this work finished in January. Also this group discussed the Democracy Project and how it could relate to the general education courses.

- Provost Gould added that the committee questioned whether or not the cap on funding should be increased. He recommended that the cap be raised from $500.00 to $1,000.00. Faculty Senate voted on the motion approved by Senator Koerner and seconded by Senator Trout: the cap for funds for Faculty Development is to be raised from $500.00 to $1,000.00. The motion was unanimously approved.

4j. Library Committee: Dianna Koerner

5. Old Business
5a. Faculty evaluation task force proposal acceptance and discussion
- Continued concerns and a discussion of the report ensued, in which senators expressed the following questions and ideas about the report:
  1. Senator Koerner questioned the amount of time it will take to administer this evaluation, especially the amount of work a chair will need to perform. She also had concerns about team-teaching courses and how this evaluation system would work for those classes.
  2. Senator Trout fears that this evaluation format will force departments to drown in paperwork and use up valuable instructional time for students.
  3. Senator Jordan expressed a concern about it becoming too cumbersome.
  4. A question concerning norming was raised, concerning time of day, class size and whether or not a course was a general education course. Provost Gould
indicated that we are required to norm but that it has not been done in about ten years.

5. Some suggested that we might try to pilot the TEVAL first.

6. President Goodlett suggested that a motion be made to move the report to University Affairs. Senator Britten made the motion and Senator Johnson seconded it. The motion was made to refer the report to University Affairs for deliberation and for the committee to report its findings at the February 2005 meeting. The motion was unanimously approved.
