Board Decision Hikes Student Fees at FHS

A fee hike of \$15 for Kansas students, effective in the fall of 1967, will mean the third such hike at FHS in three years.

Substantial fee increases for the six state colleges and universities was announced at a recent Kansas Board of Regents meeting. The hike follows a Legislative Council recommendation that student fees provide 25 per cent of the educational costs at state institutions of higher learning.

A fee increase effective last fall at FHS raised fees \$10 per semester to 102. This fall the Union fees will increase \$2.50 per student to pay for a proposed \$1.5 million addition to the Memorial

Union, making fees \$104.50.

This means in the fall of 1967 Kansas graduate and undergraduate students will pay \$119.50 per semester.

Non-Kansas undergraduates will face a rise of \$37.50 making fees \$247.50, while non-Kansas graduates will pay an increase of \$107.50, or 249.50 per semester.

Out-of-state students were tagged with the largest increases, and a board spokesman said no increase in out-of-state enrollment is expected. In fact, he added, the non-Kansas population on campus may decline as a result of the fee hikes.

Board Seeks Funds To Remodel, Build

In a recent meeting, the Kansas Board of Regents agreed to recommend state educational building fund allocations totaling \$15 million over four fiscal years for six state universities and colleges.

Allocations for FHS include \$350,000 in 1968 for remodeling and equipping the Forsyth Library building; \$57,600 in 1969; \$700,000 in 1970 and \$1,232,500 in 1971 for a new physical education building.

According to Walter Keating, comptroller, if the allocation is approved, the library building will be remodeled primarily into administrative offices and classrooms. All administrative offices, including the president's office, housing and business office would be housed in that building.

Space now occupied by administrative offices will be converted into faculty offices and classrooms. The museum, presently located on

the ground floor, will probably be moved to third floor.

Long-range planning is in progress for a physical education building to be located north of Lewis Field Stadium, where the Lewis Field apartments are being torn down.

This will not be a field house, Keating emphasized. Instead, plans call for classroom space, a regulation-size swimming pool, handball courts and locker rooms. The college hopes to use the proposed city building which should include an auditorium seating 6,000, instead of building a new field house for athletic events.

In other action, the Board approved submitting an allocation for \$25,000 for an extension of North Campus Drive. Instead of going in front of the art annex, the entrance to the parking lot will be on the north side.

Will Mail Degrees

Diplomas for summer graduates will be mailed to the graduate's home address, as listed on the degree application card, sometime after Aug. 1, according to Standlee V. Dalton, registrar.

Graduates who wish their diplomas mailed elsewhere must notify the registrar's office in writing, advising them of the address change. No phone calls will be accepted.

Stray Puppy Isn't Leading Dog's Life

A tan wire-haired terrier is the latest addition at Forsyth Library and office secretaries are making sure the stray pup doesn't lead a dog's life.

The pup was found inside the building recently, wearing a blue plastic collar with silver studs. Since then, the pup has been treated to steak dinners at the home of employees nearly every night.

Probably the female terrier strayed from an out-of-town car, according to Mrs. Ethel Rouse, library secretary. KAYS and the Hays police have both been contacted in an attempt to locate the owner.

The terrier puppy can be claimed by calling extension 272.

Lacy Speaking Friday At Economic Workshop

The director of the Kansas Economic Development Commission, Jack Lacy, will deliver a lecture Friday at Fort Hays State College's economic education workshop.

Lacy will speak at 11:30 a.m. in Felten-Start Theater, Malloy Hall.

Students, faculty members and others interested are invited to hear Lacy's lecture, according to workshop director Richard Osborne, associate professor of economics and business.

Graduates Will Hear Veteran Educator

The Superintendent of Public Instruction for the Commonwealth of Pennsylvania will deliver the commencement address Aug. 4, at FHS.

Speaking will be John Ralph Rackley, who earned a Ph.D. from George Peabody College, Nashville, in 1940.

Dr. Rackley has had more than 30 years' experience in education and has served on education committees and commissions.

His career as an educator began in Oklahoma City, where he taught history and social studies. He has served on the faculty at Teachers College of Connecticut, where he was Dean of the College; was Dean of the College of Education and professor of education at the University of Oklahoma and was Dean of the College of Education and professor of education at Pennsylvania State University.

During 1957-58, Rackley was chairman for the Governor's Advisory Committee on Education in Pennsylvania; was a member of the National Commission on Accreditation of Teacher Education from 1957 to 1960; was chairman of the Cornell University Advisory Committee on Education from 1962 to 1965; and was a member of the Commission on Institutions of Higher Education, Middle States

Assn. of Colleges and Secondary Schools, from 1962 to 1965.

Dr. Rackley attended Yale University, Vanderbilt University, the University of Oklahoma where he earned his bachelor's and master's degrees, and George Peabody College.

He began his present duties in October, 1965.

Stewart Begins New Duties As Associate Dean of Men

Michael O. Stewart, a native of Berkeley, Calif., began his duties July 15 as associate dean of students for men at FHS.

Dr. Bill Jellison, dean of men since 1960, has been promoted to dean of students and will supervise all student services at the college. The dean of students position is new at FHS.

Miss Jean Stouffer, dean of women since 1955, will continue her duties under a new title, associate dean of students for women.

Stewart has been assistant dean of men and assistant to the associate dean of students at San Jose (Calif.) State College for the past year.

He earned his bachelor's and master's degrees in 1960 and 1961 at the University of California at Berkeley. His master's degree study was in American diplomatic history.

Stewart is a member of the National Assn. of Student Person-

nel Administrators. In addition to his duties as associate dean of students for men, he will hold the faculty rank of assistant professor.

Johnson Leaving FHS Position

A member of the FHS administrative staff, Edward R. Johnson, has resigned as the college director of housing, effective Aug. 1.

Johnson will become director of operations for a private investment housing corporation, University Housing Corporation, Ltd., Wichita.

As director of operations, Johnson will be responsible for the planning, construction and management of the corporation's hous-

ing facilities.

Johnson received a bachelor of arts degree at FHS in 1958 and earned a master of arts degree in 1959 at Colorado State College, Greeley. Before joining the FHS faculty in 1963, Johnson served as director of campus housing at Bemidji (Minn.) State College and previously taught three years at Stafford High School.

No replacement for the housing director position has been named.

Fees Will Raise Again

Last year, the Leader predicted a hike in fees at Fort Hays State and all Kansas colleges and universities.

It finally has come to pass. In its July 18 meeting, the Board of Regents approved a fee hike ranging from 20 to 141 per cent. The increase is more at Kansas University and schools of similar size, but to localize it to FHS, it means \$15 more per semester for resident undergraduates, \$37.50 more for non-resident undergraduates and a whopping \$107.50 more for non-resident graduate students.

This is not the total bill, but an addition to the present rate. It all starts coming out of the pocketbook in the fall semester of 1967.

All across the state, newspaper editorial writers have accepted the hike if only because it will soften the future rise in costs which is sure to come. The cost of education, along with everything else, is going up and the student will have to make up more of his share. Colleges need more money and it is getting harder to find. Something has to be done.

Previously at FHS, student fees accounted for around 20 to 21 per cent of college income. They will now pay for closer to 25 per cent.

However, it is a shame that non-resident graduate students have to get it in the neck. This hike may put Kansas in line with surrounding states, but it is a sure way to decrease out-of-state enrollment.

Of course, Kansas should educate its own first. But the out-of-state influence is beneficial with its different way of looking at ideas and academic problems. Although it won't disappear completely, it will be seriously hampered by this fee hike.

Most students are hard-pressed to scratch up the necessary money come enrollment time. Those with parental support take up a good chunk of their folks' income.

The student is caught in the middle. He needs and wants the education. But even if attending Fort Hays State is cheaper than many other schools, come fall semester, 1967, the already tattered and torn pocket will gain a new scar or two.
