SIGNS OF CAMPUS PROGRESS flank President John W. Gustad. —(FHS Photo).

Gustad's goals

'To make FHS the best'

BY MARTYN HOWGILL
Co-Editorial Editor

Reorganizing the curriculum and the college and increasing faculty salaries and working conditions are the long term goals of President John Gustad. "I want to make this the best college in Kansas," President Gustad said.

"There are some things which I should like to see changed," he said, "but there is no rush and I want to get as much opinion expressed as possible to make change beneficial. I have no plans to upset the apple cart for the sake of upsetting apples."

Plans are afoot to change the Faculty Senate system. A committee will be appointed shortly to consider a College Senate involving all factions of the college — faculty, administration and students. Such a senate would open more effective channels of communication and interaction between students and the college administration, President Gustad said.

Dr. Gustad sees three requirements for a new senate. First, it must be larger; second, it must be more representative; and third, its duties must be spelled out more explicitly. A committee under Dr. Samuel Sackett, professor of English, is presently looking at the existing senate and will make further recommendations.

In his assessment of the college, Dr. Gustad is also considering reorganizing the college structure. Several choices are at his disposal including a school system where each school is headed by a dean.

"However, I am inclined to turn to the departmental system," said Dr. Gustad, "and there seems to be high level of agreement over this."

The Graduate Division, under new dean Dr. Jimmy Rice, is another area that Dr. Gustad is watching closely. Dr. Neil A. Walker, professor of zoology, is heading a committee which will make recommendations.

"The curriculum needs reassessing," said Dr. Gustad. "I feel that too many courses are offered. By cutting down on the number of courses, students and faculty can interact on a more informal basis."

In order to reorganize the curriculum, Dr. Gustad is presently visiting with all the division chairmen and other major officers of the college "to become familiar with the setup as it exists now." He plans to consider carefully all that retired President M. C. Cunningham did, "and why he did it."

Regarding salaries, the 46-year-old president explained that the Board of Regents had approved a 10 per cent increase for 1970-71. This increase must yet be accepted by the Kansas Legislature and Gov. Robert Docking. Dr. Gustad hopes that a further 10 per cent will be approved by the Board of Regents for 1971-72.

By raising the FHS faculty salary levels, which were recently rated at "D" by the American Assn. of University Professors, Dr. Gustad hopes to keep good faculty members at FHS and attract other talent.

It's too soon to tell figures for enrollment

BY SUSAN TROUT
Managing Editor

Sorry, it's just too soon to announce enrollment figures.

According to Standlee V. Dalton, registrar, it's simply too soon to tell what this year's enrollment will be. Dalton estimates that the

figures will be very similar to last year, but for right now, that's as close as a prediction can get.

Data processing has not yet been completed, but this is not the only factor preventing an enrollment breakdown. Students taking only Saturday and evening classes have not yet enrolled. Usually this adds 300 to 400 more students.

Dalton said the tight money and the loan situation has probably affected some students, but not to any great degree. He feels that students generally find some way to complete their education.

Working on Harvest

An inevitable hindrance to Fort Hays State's enrollment is the harvest. According to Dalton, we may still have 500 more students enroll

who have been working on the harvests.

Dalton said, "Farming is almost always a family operation in Western Kansas, since we have a definite shortage of farm labor. Right now," he continued, "we have the best seeding conditions for wheat that we've had in years."

"A number of our men students are helping prepare the ground for wheat," According to Dalton, this is not a problem that is unique to FHS, but we are probably more affected by it than other Kansas colleges because our enrollment relies so heavily on the Western Kansas people.

Storing Feed

Dalton explained another of the problems affecting enrollment was caused by "a great increase in the cattle-feeding industry in this area." He said that right now farmers are in the process of cutting and storing their crops. The crops can be stored sometimes for four or five years and used for feeding cattle. "It's time to prepare the ensilage because right now the crops are in the best condition," Dalton said.

Dalton added that enrollment figures should be near completion by next week. But, since so many of our students are involved with helping on the farms, he said for them it has to wait.

And, final figures for next year will wait.

Gustad to speak

President John W. Gustad will address the student body at 10 a.m. Wednesday morning in Sheridan Coliseum. Morning classes will be shortened for the address. Steve Rayl, Hutchinson senior and student body president, will act as emcee.

Construction pace now in full swing

The pace of the FHS campus has been steadily increasing since 1964, and the pace this year will be no different. The current construction program includes the Memorial Union and West Hall.

The Memorial Union, a \$1.2 million project, is the largest building on campus. It will house the student union, library, and other facilities.

The West Hall, a \$1.5 million project, will house the science and mathematics departments. It will also include a new laboratory building.

The pace of construction is expected to continue at a high level through the next few years. The FHS campus is undergoing a major renovation program.

The FHS campus is undergoing a major renovation program. The pace of construction is expected to continue at a high level through the next few years.

The FHS campus is undergoing a major renovation program. The pace of construction is expected to continue at a high level through the next few years.

With a base bid of \$1,200 million, the seven-story affair will be completed in August, 1970.

Construction crews are now on the second and third floors, and the project is progressing as expected. The project is expected to be completed in August, 1970.

ENROLLMENT REACH... Hays State's registrar searches for a textbook among the stacks in the library. Traditionally, one of the first steps in the school year is at this year. But, then, many... by Ian Bentley.

Bengal Briefs

Reading classes begin Monday

Students interested in the College Reading Improvement Program may enroll today or next week at the Reading Service Center, Rarick Hall 203.

The first eight-week session begins Monday and will run until Oct. 29 with classes being offered Monday and Wednesday at 9:30, 10:30 and 11:30 a.m. The second session begins Tuesday morning with 9:30, 10:30 and 11:30 a.m. classes held on Tuesday and Thursday.

The second eight-week session will run from Nov. 10.

Dames Club open to wives

The Fort Hays State Chapter of the University of National Dames Club will hold its first meeting at 7:30 p.m. Tuesday in the Memorial Union Trails Room.

People-to-People meets Monday

The People-to-People Club will have a welcome reception for all foreign students at 5:30 p.m. Monday in the Memorial Union Trails Room. The public is invited.

Art work available for offices

The art department has pictures, paintings and other art work for display in offices on campus.

Department and division offices may obtain these by contacting the art department office located in Davis Hall.

50-Year Club invites 1919 class

Students who attended Fort Hays State before and including 1919 are invited to become charter members of the 50-Year Club which will receive special recognition at Homecoming Oct. 18.

Mrs. Nita Landrum, former secretary of the Alumni Assn., has written a letter to all potential members whose addresses are available.

Concluding the special events for the new club will be a reception for President and Mrs. John Gustad.

Three professors to new posts

Three faculty members moved into administrative positions this fall, following the retirement of three veteran staff members.

Dr. Jimmy Rice, professor of mathematics, became Dean of the Graduate Division; Dr. John Tomlinson, associate professor of political science, became Chairman of the Division of Social Science; and Mrs. Maxine Hoffman, professor of home economics, became head of the home economics department.

Dr. Rice replaced Dr. Ralph Coder, who returns to classroom teaching in English; Dr. Tomlinson replaced retiring Dr. William Moreland, and Mrs. Hoffman replaced Miss Alice Beesley, who also retired.

Dean, professor hold top jobs

Two FHS faculty members hold key posts in state and national education associations this year.

Dr. John Garwood, dean of the faculty, is president of Kansas State Teachers Assn., and Dr. Raymond Youmans, professor of education, is one of two Kansans elected to serve on the powerful Resolutions Committee, the policy-making body of the National Education Assn.

Seniors meet to discuss careers

All candidates who will graduate in January, June or August 1970 will meet at 7 p.m. Thursday in Sheridan Coliseum.

Career opportunities for all candidates, including positions in business, industry, government and education, will be discussed. In addition, placement office procedures will be explained.

Get-acquainted dance tonight

The Memorial Union Program Committee will sponsor a Tiger hop tonight from 8-11 p.m.

Admission is free and everybody is invited to attend this fall semester get-acquainted dance in the Memorial Union.

During next decade

6,500 enrollment predicted

During the next decade enrollment at Fort Hays State is expected to reach 6,500 students, according to a report issued by the Kansas Higher Education Facilities Commission.

The increase of 1,000 students at FHS during the next 10 years "sounds realistic," Walter Keating, FHS business manager, said, "unless a major population shift occurs in Western Kansas."

"But," Keating continued, "an additional 1,000 students on campus will require the renovation of existing structures and building new educational facilities."

A Campus Development Study was conducted by the Hays architectural firm of Woods and Starr and submitted to the Kansas State Board of Regents. The preliminary report, which was accepted by the Regents, suggested that the "use of general classrooms could be increased by 10 per cent without overcrowding, with the construction of small seminar rooms and scheduling more Saturday classes."

Space Requirement

Discussing the future building requirements, Keating stated, "another class - building the size of Forsyth Library would meet the space requirements for the projected 1978 enrollment." He clarified the comment by noting that classrooms, teaching labs, offices and other related space would have to be incorporated into the theoretical building.

Building construction on the campus will move westward when the new physical education building and field house are constructed southwest of the main campus west of Big Creek on the site of the present intramural playing field.

"The contract for the physical education building will be let in July 1970," Keating said. "This building is being referred to as Phase I and will cost an estimated \$3 million. The field house is Phase II and under the provisions of a newly passed law governing build-

ing funds, it may be possible to build both structures at the same time.

"Phase I construction," he continued, "should be completed in 1972. This project is quite extensive because of the necessity of putting in sidewalks and streets to serve the area in addition to the usual construction involved in a new building. Two bridges spanning Big Creek and a dike for flood protection are also under consideration."

Will Move Westward

If the campus moves westward in the future, such buildings as the President's Home and maintenance facilities would become closer to the center of the academic campus. This prompted the architects

to suggest "re-use" of existing building sites.

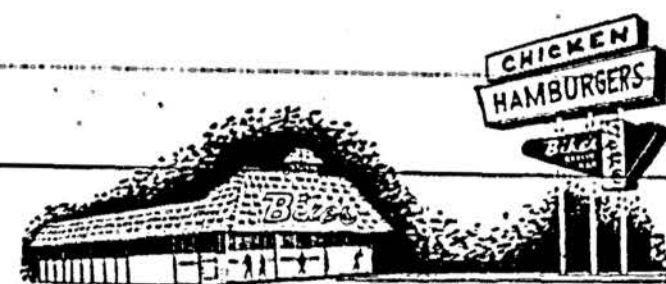

In their preliminary campus plan they noted that the President's Home could be moved, additional space for the maintenance buildings should be allotted and Rarick Hall and Sheridan Coliseum could be razed to make room for new buildings.

"By re-using these areas it will be possible to keep the academic campus concentrated and movement by students between classes reduced," Keating said.

Included in the preliminary report submitted to the Regents was a long range campus development plan showing facilities would be needed for over 9,800 students by 1987.

SPEEDY SERVICE !

FHS receives grant

Fort Hays State has received a \$3,400 National Science Foundation grant for the purchase of instructional scientific equipment to be used in the teaching of physical chemistry.

Dr. Max Rumpel, professor of chemistry and Dr. Edmund Shearer, assistant professor of chemistry, will direct the usage of the funds. Equipment for high-vacuum work and precision thermal analysis will be obtained, according to Rumpel.

Social Chairmen...
the circumstances
call for Poms.

You're in charge of building the float, decorating the house and dressing up the party. So you need Poms, the flame-resistant decorative tissue. You can decorate anything beautifully with Poms, inside and out, and do it faster, easier, better. Poms don't cost much. They're cut 6" x 6" square, ready to use, come in 29 vivid colors that are virtually run-proof when wet. Buy Poms at your bookstore, school supply dealer or paper merchant. And ask your librarian for our booklet "How to Decorate With Poms." If she doesn't have it, just tell her to write for a copy. Or, order your own copy. Send \$1.25 and your address today to The Crystal Tissue Company, Middletown, Ohio 45042.

Intro to literature class offers freedom from formal routine

BY JOYCE AUGUSTINE
Of the Leader Staff

Introduction to literature, a course designed to give students the opportunity to work independently, has been scorned and put down by many since its installation two semesters ago. Much evidence has been presented against the course, but seldom have its benefits been stressed.

The literature course was set up free of formal class periods for two basic reasons: Fort Hays State is not equipped with enough classrooms to provide small class sessions. Secondly, there are not enough instructors to conduct small classes.

In the past large group sessions were held. Students were against these sessions as much as they are the new method, according to the instructors.

Promising Program

According to Samuel J. Sackett, professor of English, the change was initiated to give students active participation in the learning process. Dr. Sackett said that the disadvantages were weighed and measured in deciding what systems of teaching would be the most beneficial to the students. It seems that both systems have many disadvantages, but the new program seems more promising.

This year's literature program is linear. What students study falls into a particular sequence. The poorer students become aware of what needs to be stressed and the more intelligent students are not

bogged down with trifles.

Sackett said the present literature program was first proposed several years ago. It was later approved by the department and finally a syllabus was designed.

Changing Program

Because the staff of instructors is continually changing, so is the program. Sackett anticipates that next year different books will be selected for required readings. Presently books have been chosen to represent excellent quality — material relevant to the life of a college student struggling in the end of the twentieth century, according to Sackett.

Because the literature program lacks set class periods does not mean that students are blindly reading books and subsequently have no opportunity for advice and guidance in their studies.

Taped lectures, special orientations and graduate student tutors are available to help students learn. Instructors in literature will also help if students want their help.

Definite Correlation

An IBM analysis of the 1968 fall semester revealed a definite correlation between the higher grades and the high percentage of faculty-student conferences. It also revealed that students who were tutored did better than those who received no assistance.

Sackett stated that the analysis was conducted to aid revision and to help eliminate flaws in the present program.

He said that the last two semesters presented a normal curve in that there were the same amount of A's. The curve differed, however, in that there were more B's and U's and fewer C's and D's. No reason for this distribution has been found at the present time.

Sackett said that with the student in mind, the program will be subject to much change in the future.

One orientation session was held Thursday. Future sessions are slated at 12:30 and 6:30 p.m. Tuesday, 4:30 and 8 p.m. Thursday and 12:30 p.m. Sept. 23.

Parents Day plans now underway

Parents Day plans are in full swing, according to Ralph Huffman, director of field services.

Registration begins at 10 a.m. Sept. 20 in the Memorial Union and continues throughout the day.

From 10 a.m. until noon parents may register and visit with their sons and daughters. Lunch will be served from noon to 1:30 p.m. Due to limited facilities, parents wishing to eat in the Union are asked to notify the Field Services office.

Facilities are also available in the residence halls. Parents eating with their sons or daughters must make arrangements with them.

The 2 p.m. program in Sheridan Coliseum opens with a welcome by Dr. John Garwood, dean of the faculty. The music program will be presented by the Varsity Band under the direction of Lyle Dilley, associate professor of music, and the Concert Choir, conducted by Dr. Donald Stout, professor of music. Sally Denison, Hays senior, president of the Second Generation Club, will give the greetings, followed by a talk by President John Gustad. Doug Lyman, Hutchinson senior and vice-president of the student body, will act as master of ceremonies.

After the program a reception will be held from 3 to 4:30 p.m. in the Union. At that time parents will be able to meet instructors and administrators.

Winding up Parents Day events will be the Kearney (Neb.) State-Fort Hays State football game at 7:30 in Lewis Field Stadium. To avoid the crowd, parents may purchase game tickets in the Union throughout the day.

GROUNDS CREW workers faced a busy task during the summer clearing away sawed pieces of diseased elm trees on campus.—(Photo by Matt Peak).

Campus elm trees hit by Dutch elm disease

The tall, stately elms that have shaded the campus for generations, made cool, green tunnels for rambling students and diverted the icy blasts of winter are dying, the victims of Dutch elm disease.

Last year crews caring for the grounds removed ten infected trees. This year five trees have been removed and 12 more are presently being cut.

Art Joy, landscape architect, working with Dr. Michael Q. Sayed, associate professor of botany, has sent specimens of the infected trees to Kansas State University, but no positive diagnosis has, as yet, been made.

"However," said Joy, "there is no doubt in my mind that the trees are infected with Dutch elm. Both the European bark beetle and the larvae from this insect are present in the infected trees."

Specialists noted wilted, curling, yellowish brown leaves in elm trees on campus last summer but hoped these conditions were due to drought. However, the adequate

rainfall this year eliminates that possibility.

Although a positive diagnosis of Dutch elm disease has not been made, trees throughout Hays do have Dutch elm disease, and the disease spreads rapidly via the European bark beetle.

The Disease Spreads

This beetle, already identified on the campus, breeds in dead or dying elm wood which has tight bark. The female lays her eggs in the late summer. In May the adult beetles emerge, fly about, are carried by wind, or "hitch hike" on moving vehicles, finally landing upon young, healthy elm twigs.

Here the beetles crawl to the juncture of two twigs and begins feeding upon tender bark and the new wood beneath.

While the beetles feed, the fungus is deposited. Although this relationship between the fungus and the beetle is accidental, it is a very effective means of spreading the disease.

Finding a Cure

Grounds crews at the college fight the disease in two ways: First, any tree with symptoms of Dutch elm — wilted, curling leaves and dead branches — is immediately cut and burned.

Second, the trees are sprayed with a solution of DDT. The spray is not a cure for the infected tree but rather a means for preventing the spread of the disease. The spray must be applied only during the dormant season which is from mid-September to the first of March.

The spray is applied when the temperature is between 40 to 60 degrees Fahrenheit and the wind is under five miles per hour.

Hays State is not alone in a battle with the disease. The town of Lawrence, Kan., has been deluged with the disease. In Lawrence, the disease has killed more than 100 trees. In Hays, the disease has killed more than 20 trees. In Hays, the disease has killed more than 20 trees. In Hays, the disease has killed more than 20 trees.

Eight new members join Division of Social Science

EDITOR'S NOTE: The following is the first in a series of articles about the new faculty at Fort Hays State.

Forty-six new faculty members have been added to the Fort Hays State faculty this semester. All of the divisions have at least two new instructors or professors.

In the Division of Social Science eight new faculty members have joined the staff.

William S. Abruzzi, instructor in anthropology, received his bachelor's degree from Pennsylvania Military College and his master's degree from Temple University.

Mark H. Bostwick, assistant professor of history, received his bachelor's degree at Carleton College and has done graduate work at Stanford University.

Kenneth Carter, instructor in political science, received his bachelor's degree at FHS and has done graduate work at Kansas State University. Patrick F. Drinan, assistant professor of political science, was awarded his bachelor's degree at Loras College and his master's at the University of Virginia.

David M. Jones, assistant professor of political science, received

his bachelor's degree at Carleton College and his master's degree at Duke University. Ronald J. Lormor, instructor in sociology, received his bachelor's degree at FHS and worked on graduate work at Kansas State University.

Frederick Y. McClusky, instructor in sociology, received his bachelor's degree at Oberlin College and his master's degree at the University of Michigan.

Mrs. Marjorie A. Thomson, instructor in sociology, received her bachelor's degree from Butler University and her master's degree at FHS.

Campus TV installation this week

Freshmen are not the only new things on the Fort Hays State campus this fall. Installation of a closed circuit cable television system was completed this week. The system, under the direction of Jack Heather, associate professor of speech and director of the radio-television area, will broadcast pre-taped lectures and demonstrations to students in Albertson and McCartney Halls.

Heather and a production director will assist faculty using the television system. Four channels are available for programming this fall, pending production of tapes. Interest for this fall has been shown in the areas of science, music and speech. Ultimately \$2 channels may be utilized with each subject area assigned a specific channel.

Two large lecture rooms in Albertson will have a total of six television sets for the presentation of video-taped lectures. McCartney will have five classrooms set aside for closed circuit television when the planned remodeling is completed in 1970. Two of the rooms will utilize rear-screen projection which will allow images to be projected on a five by six and a half foot screen.

In addition to the receiving sets, the educational television system will utilize two studio cameras, a film chain for showing films and slides and distribution equipment for relaying the productions from the campus television center in Malloy Hall to receivers in the classrooms.

In addition to Heather as program director, FHS has added a permanent engineer to maintain the equipment and a production director to assist faculty using the system and to teach classes in radio-television operation.

At Alva Saturday

Tigers kick off new season

Fort Hays State kicks off a new football season Saturday when the Tigers tangle with the Rangers of Northwestern Oklahoma in Alva, Okla.

Head Coach Tom Stronggren was greeted by 83 Tiger hopefuls when practice began Aug. 25. Since then the number of gridgers has dwindled to 46. Only 12 members of last year's squad are on the 1969 roster.

The FHS squad met St. Mary's of the Plains, Dodge City, in a practice scrimmage last Saturday, and the two forces played to a fourth-quarter deadlock.

"We're satisfied with the scrimmage," Stronggren said, "we found some key deficiencies that we're going to correct and I think we'll be a lot better as a result. We really needed this type of scrimmage."

In the game St. Mary's rushed 21 times for 106 yards while FHS was close behind with 36 carries and 105 yards. The passing department was also close as the Cavaliers completed 7 of 19 passes for 156 yards and the Tigers collected 98 yards on 5 of 16 aerials.

In the individual categories, Tommy Evans, Plattsburg, Mo., junior, carried the football 15 times for 47 yards and freshman Jim Keating, Chicago, Ill., picked up 32 yards on seven carries. John Covington, Fulton, Ky., senior, was the top passer for the Bengals as he completed FHS's five passes.

Defensively, Austin Battaglia, Chicago, Ill., sophomore, and Ted Juneau, a junior from Herington, led in tackles with eight each. Ed

Young, Beaumont, Tex., sophomore, made six stops for the Tigers.

Returning lettermen are Mike Butler, Marysville sophomore; Kenny Caywood, St. Francis senior; John Covington, Fulton, Ky., senior; Jack Georgeson, Lenora senior; Craig Gwinner, Ellsworth senior; Carl Helm, Great Bend

senior; Lynn Lashbrook, Kansas City, Kansas senior; Lloyd Logsdon, Grant, Neb., senior; Jim Powell, Mankato senior; Dennis Spratt, Ellsworth senior and Frank Tappan, Lyons senior.

Kearney (Neb.) State College provides the opposition for the Tigers' home opener at 7:30 p.m. Sept. 20 in Lewis Field Stadium.

Former juco coach guides defensive unit

Serving as defensive coach for the Tigers this season is former Dodge City Junior College head coach Jim Paramore.

Paramore graduated from Seaman High School in Topeka where he gained 2,492 yards from his tailback position in his junior and senior years, good enough for second in Topeka high school history.

At Baker University, Paramore earned four letters and was All-KCAC first team twice and All-KCAC second team twice. He was also named to the Methodist College All-American second team.

After graduation from Baker in 1961, the Topeka native went to Emporia State where he received his Master of Science degree.

Francis uncertain on harrier season

"It would be foolish to say that we will have a cross country squad that is better than last year's, yet we could have a fine team," said Fort Hays State's cross country coach Alex Francis.

Francis described the squad as being unready because many of his runners worked this summer and did not have the opportunity to work out as much as he had anticipated.

"Fort Hays State lost a guy named John Mason through graduation at mid-term last year and you don't replace guys like that—ever," Francis said. Mason was undefeated in his last two years of college competition and was the number one cross country runner in small college ranks.

Returning to the squad this year are sophomores Larbi Oukada, Casablanca, Morocco, Alvin Penka, Odin, David McLeland, Great Bend, Penka and Oukada suffered injuries last season that kept them from competing in many important

meets. McLeland did not compete last year due to a six-month stint in the service.

Jerry Shelly, a three-year letterman from Ford, is back in good condition after working out most of the summer. Veterans Dick Bruin, Oakville, Ontario, Canada senior, and Jerry Duran, Johnson senior add experience to the squad.

Returning lettermen Dennis Wheatcroft, Ellinwood sophomore, Steve Boehmer, Bern junior, and Herb Camien, Long Island, New York sophomore, are potential help to the team. Also back for another season is sophomore Dave Goering from Sylvan Grove.

The leading newcomer to the squad is Richard Green, Hays freshman, who finished tenth in the 4-A cross country meet last year. Other new squad members are Kenneth Walker, Wathena freshman, Elmo Bailey, Medicine Lodge freshman, and Mark Hill, Newark, Del., senior.

FORMER OLYMPIAN Larbi Oukada, who finished third in the NAA cross country meet last year, is one of the runners Coach Alex Francis will count on to lead the 1969 national champs. Oukada is a journalism major from Casablanca, Morocco.

Gary Freed

Football centennial year marks new look for FHS

As football celebrates its centennial anniversary this year, Fort Hays State begins its 52nd year of intercollegiate competition on the gridiron.

Football, on the intercollegiate level, began at Hays in 1913 under the guidance of Ira Van Cleave. The squad posted a 4-1 mark that year. Since that time a 206-202-36 mark has been compiled by FHS gridriders.

Only the squad of 1917, coached by W. G. Speer, has been able to put together an undefeated season. The team won seven games that year.

While a member of the Kansas Conference, Fort Hays Kansas Normal School claimed two conference crowns. These came in 1917 and 1921.

In 1928 FHS joined the Central Intercollegiate Conference but had to wait until 1934 before gaining another conference title. The Tigers have won or tied for the crown three times since then, the last coming in 1966 under retired coach Wayne McConnell.

New Look

The year 1969 brings a new look to football at Fort Hays State.

Head Coach Tom Stromgren is beginning his first year at the reins of the Tiger forces, who will be shooting for the first Rocky Mountain Athletic Conference football crown to be offered since its expansion.

Stromgren is calling the 1969 season the "sic 'em" season. "We are going to sic 'em on offense, sic 'em on defense and bring wide

open, aerial-minded, exciting football to western Kansas," Stromgren said.

The first-year mentor has installed a pro-style offense and has had the task of molding the 46 remaining Tiger football players into a working unit.

Darkhorse Contender

Stromgren, who quarterbacked at College of Emporia, is looking to improve on last season's mark of 2-7. A host of junior college transfers plus 11 returning lettermen could make the Tigers a strong contender for the conference crown.

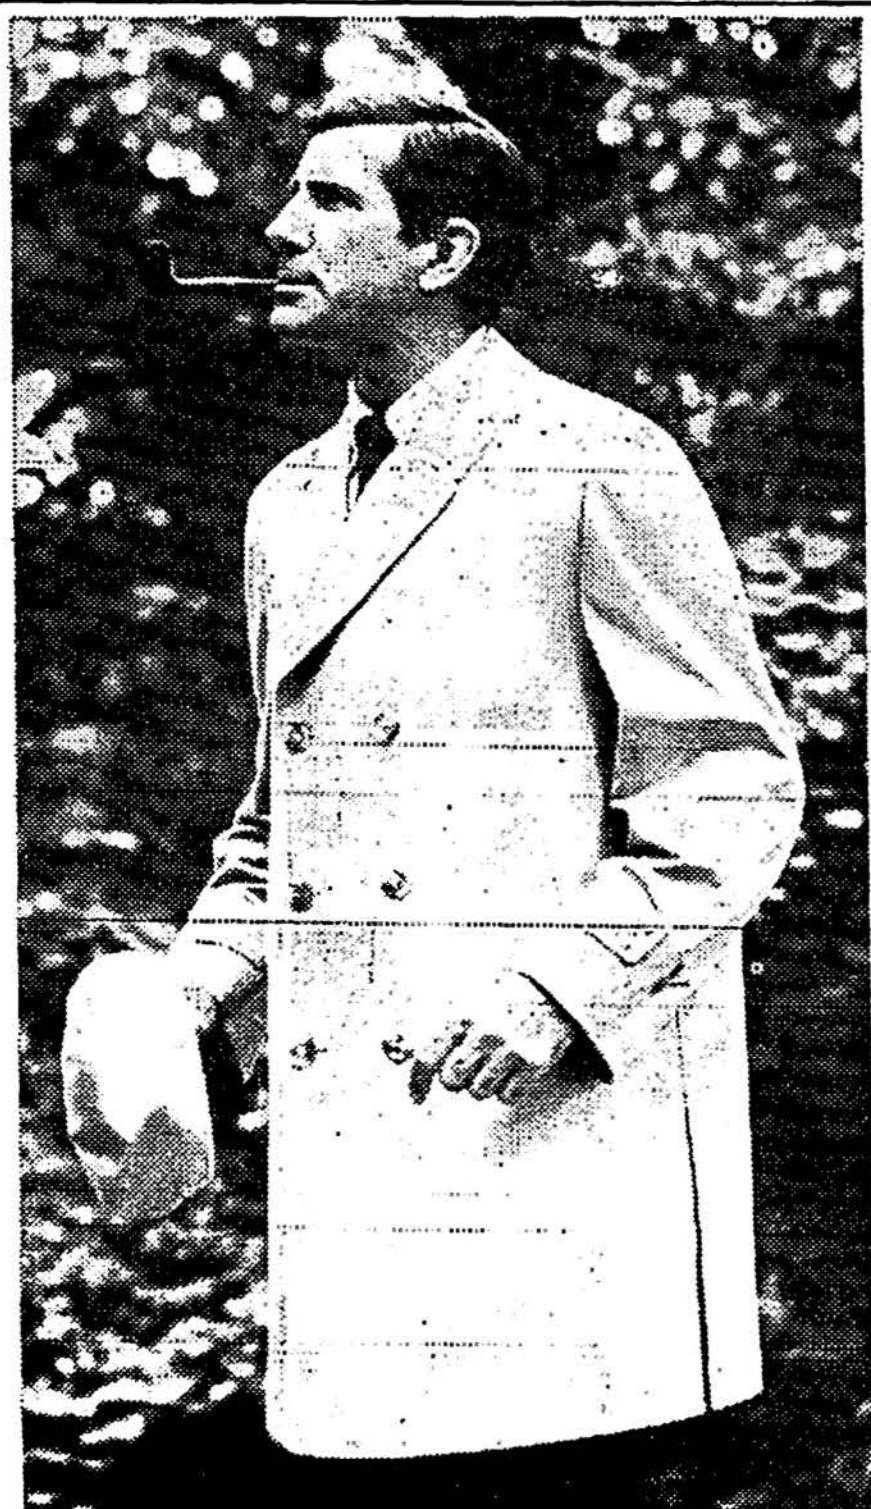

In the RMAC Plains Division, Emporia State and Colorado State College are considered the preseason favorites but the FHS crew is figured as a dark horse and should pull a few surprises in the next nine weeks.

Northwestern Oklahoma of Alva provides the competition in the first game of the season. The Tigers should capture a victory from the Rangers who managed only one win during the 1968 campaign.

"We could be a fine football team," Stromgren said. "We have good running backs and have a lot of boys fighting for a job. There is a good battle at our split end position with Dennis Spratt and Lionell Jenkins working hard."

"John Covington has been looking tremendous at quarterback and Jack Georgeson is learning the new offense and is doing well as backup man," Stromgren said.

"Our offensive line is standing up well and has created a stable front for backs to operate behind. We'll be an exciting football team to watch."

The slim double breasted... Lancer by London Fog

Handsome touch for the man who knows what's what, when and where, rain or shine, the modern urban styling of London Fog's Lancer with slim double-breasted styling, side vents, notched urban demi-shawl collar; and split shoulder for a close-to-the-body ease of shape. Fort Hays State's new first lady likes it here

By Sharon Jacobs
News Editor

"Kansas has something very special and that's their people," said Mrs. Doris Gustad, wife of President John Gustad. "They're all so wonderful," she said.

Fort Hays State's new first lady is eager to learn about the activities of FHS. "I'm ready to help whenever and wherever I'm needed," she said.

"After my husband's position was announced, it was a long five

months waiting to move to Hays," she said. "I was a little scared but also quite excited as we anticipated our new position. We're excited and feel that this is the right school for us."

The Gustads have enjoyed warm welcomes from the community and campus. "We are looking forward to spending lots of years not only for you, but with you," Mrs. Gustad said.

"It's a lovely campus and we haven't received a warmer welcome anywhere," she said. Mrs. Gustad plans to wander around the campus and get acquainted with everyone because she feels "that it is my campus, too."

"I like to entertain in the home and am planning to have small groups over for barbecues to become more acquainted with the

students. We have even bought a large grill for hot dogs and hamburgers," Mrs. Gustad said.

But with a 17-year-old daughter and a 22-year-old son, the Gustads are used to a large traffic flow of youngsters in their house. "We are always having last minute guests and are never sure who will show up for breakfast," laughed Mrs. Gustad.

Their daughter, Ann, will be attending Hays High School this year. Their married son, Charles, who has completed his masters degree in psychology and worked as a staff psychologist in Hastings, Neb., was inducted into the service recently.

One of her roles as FHS's First Lady will be redecorating the president's house located west of the Memorial Union. She is plan-

ning to have most of the house done in contemporary style.

Mrs. Gustad enjoys working with ceramics and reading about higher education. "I try to keep up on it," she said.

Besides taking care of her family, home and outside activities, Mrs. Gustad often travels with her husband when he attends college-related meetings.

"I never lived west of Ohio until we lived in Nebraska for the past nine months, so Kansas is new to me," she said. "But the high plains make me feel like I am on top of things," she said.

But it is the people she is genuinely interested in. As she said, "I feel like I should pinch some of the people to see if they are for real—but again, I might get slapped."

MOVING into the president's house in July was a big but enjoyable chore for Mrs. Doris Gustad (right), wife of FHS President John Gustad, and their daughter, Ann, a student at Hays High School. — (FHS Photo).

Navajo Indian will receive Project Opportunity award

A Navajo Indian from Arizona is the Project Opportunity Scholarship winner at Fort Hays State for the 1969-70 school year.

The project is a fund raising program designed to help minority students obtain an education at FHS. This year's winner, Anderson D. Jones, is the second winner since the program began in 1968.

Project Opportunity raised funds this spring through a program in which parents of FHS students were asked to buy survival kits for their sons or daughters so they

could get through the final examination period in May. The kits contained candy and other snack foods.

Profits from the kits amounted to over \$1,325, according to Dr. Gordon Davidson, associate professor of history and chairman for the project. Another \$377 was raised for the scholarship from letters mailed to students and faculty asking for contributions.

Jones has lived on a Navajo Indian reservation near Chinle, Ariz., all of his life. Anticipating a teaching career, he wrote on his application for the scholarship, "I feel more Navajo teachers are needed on the reservation, and I hope to be able to help my people through education and athletics, to improve attitudes toward schools, to fight their problem with alcohol, and in general to help them regain and strengthen their dignity and pride."

The 1968 winner of the Project

Opportunity Scholarship, Stella Howell, St. Mathews, S.C., plans to return here this fall for her sophomore year.

Project Opportunity is designed to help students during their freshman year only.

Course in juco teaching to be offered this fall

Educators interested in junior college teaching have an opportunity to enroll in extension courses this fall. Fort Hays State is sponsoring the programs in Great Bend and Pratt.

The course, titled "The Junior College," offers three hours of graduate credit and includes a study of history, philosophy, development, growth and present status of the junior college.

In Pratt, the organization meeting is set for 6 p.m. Wednesday and in Great Bend the class organizes at 3 p.m. Tuesdays.

FHS notified of law grant

Fort Hays State has been notified by the U.S. Department of Justice that a grant of \$6,075 is available this fall for in-service law enforcement officers to continue their education.

The funds are to be used to provide tuition grants to all in-service law enforcement officers who desire to take advantage of the program.

Grant recipients may enroll not only for courses directly related to law enforcement, but may also enroll for courses related to law enforcement or for courses suitable for employment in law enforcement. The program is restricted to in-service law enforcement officers of local, state and federal units of government.

18 pre-enrolled freshmen accept Honors invitations

Eighteen pre-enrolled freshmen have accepted invitations to participate in the Honors Program this fall.

Students in this program substitute 24 academic hours of Honors Colloquia and Seminars for the 40 hours of a basic studies program required of all other freshmen and sophomores.

Students are admitted on the basis of outstanding high school academic records and scores on the ACT tests taken before enrolling for college. Upperclassmen or students already enrolled at FHS may gain entrance to the Honors Program upon recommendation of faculty and superior collegiate academic record.

Freshmen planning to enter the program in September include: Larry Dahl, Colby; Anita Knopp, Selden; Christie Elder, Kingman; Debbie Million, Phillipsburg; Lisa Callender and Deera Edmundson,

Wichita; June Anderson, Clyde; Kathryn Riedel and Art Chambers, Hays; Thomas Hammeke, Belpre; Timothy Dyck, Syracuse; Jeanne Bullard, Silver Lake; Margaret Ward, Clayton; Jerome Meder, Pfeifer; Dianne Barton, Medicine Lodge; Roger Kaufman, Dorance; Craig Thompson, Isabel; and Bill Blomberg, Lindsborg.

Reveille distribution will begin Thursday

Individual photos for the class, residence halls, and Greek sections of the 1970 Reveille will be taken Sept. 22 through Oct. 22.

Photo appointments may be made in Forsyth Library any time. A \$2 fee will be charged.

Distribution of the 1969 year-books is tentatively set for Sept. 18 and 19. Books may be picked up in the old power plant. Student identification cards must be presented.

Saturday, Oct. 18

Homecoming program set

The FHS campus will bustle with activity Oct. 18, as the 1969 Homecoming gets underway.

Friday night will launch the festivities with a pep rally, bonfire and the crowning of the 1969 Homecoming Queen.

The traditional tug-of-war between the freshmen and the sophomores will open up Saturday's activities, which will be followed by the annual parade through downtown Hays. This year's parade will feature "Highlights of the Sixties" with floats and decorations patterned after appropriate events in the closing decade.

Early in the afternoon the FHS Tigers will battle the Emporia State Hornets at Lewis Field Stadium. Halftime activities will include presentation of winning floats, honored guests, the Homecoming Queen and the "Busch"

Gross Athletic Award.

Numerous receptions and class reunions will occupy the afternoon as classes from the decade years of 1919, 1929, 1939, 1949 and 1959 are honored. Special guests will be graduates prior to and including 1919 who will form the charter membership of a new organization, The Half Century Club. A special reception by the Alumni Association will be given in honor of President and Mrs. John W. Gustad.

A concert by the renowned Serendipity Singers will cap off the day's activities. The concert is sponsored by the Artists and Lecturers Committee comprised of faculty and student representatives under the leadership of Dr. Bill Jellison, dean of men.

This year's Homecoming committee is headed by Dave Meckenstock, a '67 graduate, and two other former students; Mrs. Roger

Franke, '54; and Duane Steffen, '55. Faculty members including Carroll Beardslee, director of student aids and federal programs; Dr. Elton Beougher, assistant professor of mathematics; and Miss Monice Somers, instructor in HPER, will also assist along with students Fred A. Johnson, Grainfield junior; Brent Wenrick, Cimarron junior; Mary Stuart, Dodge City sophomore; Stan Percival, Medicine Lodge junior; Lenett McClain, Satanta junior; Elaine Herrman, La Crosse junior; and Susan Hedge, Colby senior.

Saturday, night classes slated

Saturday and evening classes are offered in 17 areas this fall at Fort Hays State.

Classes will be held each week-day night and Saturday mornings with credit from one to three hours available. Interested persons can choose from a schedule which includes courses in mathematics, English, music, speech, business, economics, literature, biology, history, political science, sociology, psychology, education, geology, Spanish, German and French.

Anyone interested in the Saturday and evening classes program at FHS should contact the registrar for admission.
