Faculty Meeting  
October 20, 1954

Mr. Sackett reminded faculty members that Larry's Studio would complete  
The meeting was called to order by Dean McCartney, who presented recommendations  
from the Faculty Senate.

The first recommendation was from the minutes of October 20 concerning the  
Faculty Conferences and Freshman orientation and enrollment.

This recommendation was discussed. The question asked if the entire first  
week was taken up in faculty conferences, orientation and enrollment, and  
classes started on the second Monday, would the first week count as one of  
the 18 weeks. The answer was that it would. This would make 85 days in  
the fall semester. Comments: It has been a fine thing for parents to bring  
freshmen for the Sunday convocation and activities, and they probably would  
not be able to come on Tuesday. Students would not stay over the first  
week end, as soon as they had completed their enrollment they would go home  
until the following Monday. Would it be difficult to get upper classman  
to assist with enrollment? Mrs. Simons thought not. Dr. McCartney said he  
had discussed it with the Student Council, and the students felt it would  
take some of the pressure off the freshmen the first week.

Motion was made by Dr. Thompson, that the faculty approve the recommendation.  
Motion was seconded and carried without a dissenting vote.

The next recommendation, page 7, Faculty Bulletin, No. 5, concerning Physical  
Education requirements was discussed. Motion was made, seconded and carried  
unanimously that this recommendation be approved.

The recommendation on the same page of the faculty bulletin, that requirement  
for graduation be 120 credit hours plus the satisfaction of physical education  
requirements, was approved on motion by Mr. Welty, Seconded and carried.

On page 10, the recommendation that advanced standing credit by examination  
be counted with the 30 hours of extension credit, was approved by the faculty.

The recommendation that a fee of \$5.00 be charged for administering the  
advanced standing examination was approved.

The recommendation on page 3, Faculty Bulletin, No. 4, that resident credit  
be given for Field Studies in Geography, 87E and 87W, was approved.

Dr. McCartney announced that the blanks for the Ford fellowships were here  
and could be obtained in his office. He asked that faculty members, in checking  
programs for the summer session, see the chart in his office. He asked for  
suggestions for revision in the catalogue.

Mr. Dalton asked that faculty members complete conferences with advisees  
and get class schedules to his office before Christmas vacation.

He mentioned the fund for Miss Paul, and reminded faculty members to take  
care of that matter if they wished to do so, at an early date.

Dr. Moreland reported that the preliminary floor plans for Student Union  
had been turned over to the architects Starr and Wood, with instructions  
to go ahead.

Mr. Sackett reminded faculty members that Larry's Studio would complete faculty pictures on Thursday, December 16, and urged those who had not done so to have a new picture taken.

Dr. Coder reported briefly on three matters - A meeting of the Dean's and Registrars in Topeka in October, a meeting of the Executive Committee for the Institute for Research on Exceptional Children, and the proposal for the Educational T. V. Program for Kansas.

Meeting adjourned.

Cora Bibens, Secretary
