Teach an Honors Course

The FHSU Honors College is looking for exceptional faculty to teach courses to outstanding students on campus. Participating in one of the university's Programs of Distinction is a chance to expand learning opportunities for students, as well as experiment with new strategies in and out of the classroom.

While Fort Hays State University strives for academic excellence in all classes, at the heart of a successful honors program is the unique interaction between teacher and student made possible by the opportunities of an honors course. **Intellectual challenge, quality over quantity**, and **interactivity** drive these unique courses. Exceptional faculty teach honors sections **in-load**, with **small class sizes** full of **highly motivated students**. These can be an honors version of **one already offered, required courses**, or **special topics** reflecting unique research agendas.

For detailed information, to read the Honors College learning objectives, or to get started on your course proposal please visit: <http://www.fhsu.edu/honors/Resources-and-Forms/>.

SketchUp Beginner Workshop

Wednesday, March 8, 12:30 p.m. – 1:30 p.m.
Forsyth Library Computer Lab

Register at <http://tigerlearn.fhsu.edu/event/sketchup-beginner/>.

Technology Services and the Institute for New Media Studies will present a series of workshops on a valuable piece of software called SketchUp.

Presented by: Gordon S. Carlson, PhD
Assistant Professor, Communication Studies
Director, Institute for New Media Studies

The workshop will include one hour of instruction and one hour of free work time with help from the instructor. Absolutely no previous experience is needed. If you can use a mouse and keyboard you will leave the workshop with a 3D model of your dream house ready for printing on paper or a 3D printer.

Cost: Free to FHSU community members

Everyone has seen 3D images or animations used for learning, but most people think creating them would be either too complicated or expensive. In reality, drawing and animating in 3D is something anyone can do. Faculty can create custom materials for their classes or research quickly and for free. Staff can make information more accessible and their work more efficient and entertaining.

SketchUp is a friendly and forgiving 3D modeling tool, because it can do many of the advanced capabilities a professional artist might enjoy, but only takes minutes to start using. If you can draw a square on a piece of paper, you can create 3D designs in SketchUp. Three workshops offer hands-on practical learning. This isn't theoretical, you will get your hands dirty and leave the workshops with finished products and specific skills useful to the entire FHSU community.

All workshops are held in the Forsyth Library computer lab. Everything is provided, you don't need to bring your computer.

Academic Advising Webinar on Title IX

Thursday, March 9, 1:00pm to 2:00pm

Memorial Union Black and Gold Room

The Academic Advising and Career Exploration Center will be hosting *It's On Us Too: Understanding & Navigating Title IX as an Academic Advisor*.

RSVP: Please let us know if you are planning to attend by replying to advising@fhsu.edu. We will send you a calendar entry that you will need to Accept and Send the Response Now. We look forward to seeing you at our sessions.

Webinar Overview:

Many institutions are grappling with new Title IX requirements and the issues surrounding the reporting and investigation of relationship violence and sexual misconduct. Many academic advisors are now mandated reporters, yet have little knowledge of the policies, procedures, and support services available to both complainants and respondents. As advising may be the only area where students have sustained contact with a representative of the institution, academic advisors may find themselves on the forefront of these difficult conversations. In this webinar, advisors will receive a primer on Title IX legislation, student rights and responsibilities in the investigation process, and the resources available to support all parties involved, as well as a review of what being a "mandated reporter" means and the implications for the advising relationship. Attendees will:

- Gain an understanding of the history and parameters of Title IX in relation to relationship violence and sexual misconduct;
- Learn basic reporting protocols on campus;
- Understand student rights and responsibilities surrounding the investigation process; and
- Discover resources both on and off campus to support all parties involved.

Presenters:

- **Shannon Lynn Burton**, Associate University Ombudsperson / Research Integrity Coordinator, Michigan State University

In her role as Michigan State University's Associate University Ombudsperson, Shannon Lynn Burton assists both complainants and respondents in better understanding their rights in the investigation process. She serves on the International Ombudsman Association's Title IX Response Committee and has taught courses that focus on critical issues, as well as legal and ethical issues in higher education. Additionally, she has research interests in ethics/integrity, restorative justice, and due process in higher education.

- **Mark Duslak**, Director of Student Development, Lake-Sumter State College.

Mark Duslak has served as a school counselor for six years, was an academic and career advisor for two years, and has recently assumed the position of Director of Student Development, overseeing Campus Life, the Office of Student Disabilities, and Academic Advising at Lake-Sumter State College. Mark has worked in rural and urban school settings serving populations from grade 6 through college. His preparation as a counselor provided opportunities to understand issues of confidentiality, mandated reporting, and the effects on the counselor-client relationship. As a counselor, he was a mandated reporter and worked with students on issues of threats of violence, abuse, and harassment.

-Patricia Griffin, Director of Academic Advising and Career Exploration Center
