Minutes of the Meeting of the Faculty Senate, Wednesday, November 3, 1959,
at 4:00 p.m. in the Dean's Office.

Members present: Mr. Dalton, Mrs. Bogart, Dr. Craine, Mr. Friesner, Dr.
Garwood, Dr. Herren, Dr. Martin, Dr. Parish, Mr. Toalson,
and Dr. McCartney, Chairman

Members absent: Dr. Coder, Dr. Moreland

The meeting was called to order by the chairman, E. R. McCartney.

Scheduling suggestions: The chairman reported that in preparation for increased enrollment and in order to utilize the present classroom space, or even less space when Picken Hall is being renovated, it may be that the best solution would be to start the classes on the half hour (beginning at 7:30 in the morning) and continue throughout the day until 5:20 p.m. which would give ten class periods per day. This probably would be more acceptable than to schedule classes on Saturdays. It seems that it would make a better division of the time at noon and the serving of meals should be easier. The scheduling of football, basketball, band, etc., was discussed. One of the problems during enrollment is the fact that those participating in these groups require special consideration. Students who are enrolled in the 3:00 and 4:00 o'clock classes are now asking to change to morning sections in order to participate in basketball. It was suggested that the band and other such groups might be scheduled during the noon hour.

No decision was reached regarding the scheduling of classes and this will be discussed at a later meeting.

New Courses approved: The chairman announced that there were requests from several areas for new courses. A list showing names, numbers, etc., was given to the Senate members. The applications for these courses have been received.

ART: The following courses in Art should be dropped:

- 8. Design
- 25. Weaving
- 51. Weaving
- 58. Jewelry

Requests for new courses as follows:

1. Fundamentals of Art. Three credit hours. A course designed to give beginning students a general understanding of the esthetic and technical problems in art. The students will be given an opportunity to create through drawing, sculpture, painting, ceramics, and print-making. This course will be required of art majors and is recommended for non-art majors desiring some creative experience in art. This course is not a substitute for Introduction to Art 20.

- 2 -

380. Research in Art. One to five credit hours. An advanced graduate or post graduate course for mature students who are capable of doing independent creative research.

385. Art Theory and Criticism. Three credit hours. An advanced study of contemporary estheticians and theorists and will require an original paper on the subject of art criticism and evaluation.

These changes were discussed. It was suggested that the courses in weaving had been very worthwhile and it seemed too bad to drop them. It was asked if the course, Fundamentals of Art 1, would be used as a substitute for the general education course, Introduction to Art 20. As stated in the description this course is not intended as a general education course and not a substitute for course 20. This course is to be used as a basic course for art majors in place of Design 8 which is being dropped.

RECOMMENDATION: It was recommended that the Senate approve the courses, Fundamentals of Art 1, Research in Art 380, and Art Theory and Criticism 385, as described above; and to drop the courses, 8 Design, 25 Weaving, 51 Weaving, and 58 Jewelry. Seconded and carried.

ECONOMICS AND BUSINESS: Request from this department for a new course, C.P.A. Problems 164, for three credit hours. "To a large extent," Dr. Thompson wrote, "it is an enlargement of our present course, Accounting Review 164, which will be discontinued."

164. C.P.A. Problems. Three credit hours. Prerequisite, 150. Selected problems from C.P.A. examinations; analysis and revision of statements, partnerships, corporations, quasi-reorganizations, mergers, and others; theory, auditing, ethics. An analysis of the needs of the business manager for operating information and control.

This was discussed.

RECOMMENDATION: It was recommended that the Senate approve the course, C.P.A. Problems 164, for three credit hours; and to drop the course, Accounting Review 164. Seconded and carried.

GEOLOGY: Request for the course, 120 Geology and Mineral Resources of Western Kansas, for three credit hours; and drop the course, 12 Geology of Western Kansas, as it is too elementary to interest upper division students in the sciences or general education programs.

120. Geology and Mineral Resources of Western Kansas. Three credit hours. A course designed especially to provide a general background for understanding the regional geology and economic significance of the mineral resources, both

surface and sub-surface. The course will include field trips and laboratory utilization of museum and study collections. Especially recommended for teachers of general and earth science courses.

RECOMMENDATION: It was recommended that the Senate approve the course, 120 Geology and Mineral Resources of Western Kansas, three credit hours; and drop the course, 12 Geology of Western Kansas. Seconded and approved.

INDUSTRIAL ARTS: Request for the following courses:

- 29. Small Gasoline Engines. Two credit hours.
- 70. Drafting Techniques and Problems. Two credit hours.
- 80. Electronic Equipment Construction and Repair. Three credit hours.
- 100. Industrial Arts for Elementary Teachers. Two credit hours.
- 101. Advanced Industrial Drafting. Three credit hours.
- 301. Dynamotive Analysis. Three credit hours.

The descriptions for these courses are as follows:

29. Small Gasoline Engines. Two credit hours. The study of small horse power gasoline engines of two and four cycle type. Laboratory practice in repair and maintenance of such units.

70. Drafting Techniques and Problems. Two credit hours. Prerequisite, 1. The techniques and problems of teaching drawing. A course designed to give the student actual laboratory practice in the teaching of drafting under direct supervision of the drafting instructor.

80. Electronic Equipment Construction and Repair. Three credit hours. Prerequisite, 30. Practice in the construction and repair of electronic equipment used in the construction of equipment used in communication and reception of electrically transmitted A.M. and F.M. signals and the construction of electronic devices suitable for high school programs in the area of electricity.

100. Industrial Arts for Elementary Teachers. Two credit hours. Development of skill in the use of simple hand tools used in the construction of projects suitable for classroom activities of an industrial nature in correlation with the activities carried on by the classroom teachers in grades one through six.

101. Advanced Industrial Drafting. Three credit hours. Prerequisite, 2. Study of production, machine industrial, and topographic drafting principles and practices.

301. Dynamotive Analysis. Three credit hours. Prerequisites, 170, 171. Laboratory practice in the use of the Dynamometer in analysis and adjustment of automotive engines.

The need for these courses was discussed.

RECOMMENDATION: It was recommended that the Senate approve the courses, 29 Small Gasoline Engines, 70 Drafting Techniques and Problems, 80 Electronic Equipment Construction and Repair, 100 Industrial Arts for Elementary Teachers, and 101 Advanced Industrial Drafting, Seconded and carried.

and 301 Dynamotive Analysis

PSYCHOLOGY: Request the following changes:

Drop courses, 70 Comparative and 84 History of Experimental Psychology.

Change the numbers of the following:

- 351 Methods of Research to 251,
- 385 History of Psychology to 184,
- 240 Physiological Psychology to 140, and
- 345 Advanced Industrial Psychology to 245,

Add a new course, 142 Sensation and Perception. Three credit hours.

142. Sensation and Perception. Three credit hours. Prerequisite, 1. A survey of the present knowledge of structure and function of the sensory systems and theory regarding our perception of the world around us as it arises through the function of the sensory systems. The sensory functions studied include vision, hearing, smell, taste, kinesthesia and touch.

These changes were discussed.

RECOMMENDATION: It was recommended that the Senate approve the course, 142 Sensation and Perception as described above; and the other changes as outlined above. Seconded and carried.

ZOOLOGY: Request the following changes:

Drop course 35 Elementary Physiology.

Change the number of 50 Mammalogy to number 52.

Add: 49. Anatomy and Physiology. Three credit hours.

50. Anatomy and Physiology. Three credit hours.

49. Anatomy and Physiology. Three credit hours. Prerequisite, Biology 1 or equivalent. Two lectures and one laboratory period per week. The structure and function of the human body are presented by lectures, demonstrations, and laboratory work. The first semester included the integumentary, skeletal, muscular, and nervous systems.

50. Anatomy and Physiology. Three credit hours. Prerequisite, 49. A continuation of course 49. The second semester includes respiratory, circulatory, digestive, endocrine, excretory, and reproductive systems.

These changes were discussed.

RECOMMENDATION: It was recommended that the Senate approve the courses, 49 and 50 Anatomy and Physiology each three credit hours; and the other changes outlined above. Seconded and carried.

The meeting adjourned at 5:10 p.m.

E. R. McCartney, Chairman

S. V. Dalton, Secretary
