Application for the Data Processing courses.

RECOMMENDATION: Approve the Data Processing courses: (See attached.)

Minutes of the Meeting of the Faculty Senate, Tuesday, May 7, 1963 at 4:00 p.m.
in the office of the Dean of the Faculty.

Members present: Dr. Bartholomew, Mr. Campbell, Mrs. Colburn, Mr. Coulson,
Mr. Dalton, Dr. Kinsinger, Mr. McKee, Mr. Slechta, Mr.
Spomer, Miss Veed, and Dr. Garwood, Chairman.

Members absent: Dr. Coder, Dr. Dick, Miss Rinker.

Others present: Mr. Davidson, Dr. Stage, Mr. Witt.

The chairman, Dean Garwood, called the meeting to order, and presented the request of the People to People group.

People to People. Copies of the Request of the People to People organization, goals, etc., were sent to the Senate members previous to the meeting. The following is a copy of the request:

The goal of People to People is to bring students into contact with individuals of other nations. We not only encourage greater contact between American and foreign students but also among foreign students themselves.

This is accomplished through our five basic committees. The Brother-Sister Committee is designed to help a foreign student when he or she arrives. His big Brother or Sister will greet and assist him in any way possible.

The Hospitality Committee arranges for farm and industrial tours and assists in the planning of other entertainment.

The Forum Committee arranges for speakers or panel discussions at the meetings.

If a student desires a summer job, the Job Placement Committee will help him find one.

Every summer, European tours are arranged by the Students Abroad Committee. This summer, eight hundred students - three from our campus - are going to Europe.

We request recognition so that our goals may be fulfilled.

Four officers have been elected:

Chairman - Jim Rock
Vice-Chairman - Robin Bigge
Secretary - Clinton Pearce
Treasurer - Robert Timken

Committee chairmen have been selected as follows:

Brother-Sister - Kenneth Nelson
Hospitality - Hossein Rahimian
Forum - Charles Myers
Job Placement - Jim Rusco
Student Abroad - Cheryl Clevenger
Office - Clinton Pearce
Publicity - Marvin Dunlap
Membership - Stephen Yow

People to People has two sponsors: Dr. Doris Stage and Mr. Gordon Davidson.

There is a membership of 85 students in People to People.

It was noted that the copy does not include the constitution and the list of members. Mr. Davidson said they would be glad to supply these.

Mr. Davidson and Dr. Stage are sponsors of the group. They were asked to make comments regarding the organization. Mr. Davidson said that the organization was started at Kansas University in answer to the need of the foreign students enrolled there. These students were associating with the students from their own countries and were not getting acquainted with students from other lands. Because of the large number of foreign students enrolled there, this was easier to do than it would be on our campus.

Mr. Davidson said that there are 92 in the People to People group at Fort Hays State College now, and they are very enthusiastic and willing to work. All the foreign students are members of the group. Some of the work carried out in this group is covered in the International Relations Club but two outstanding features of the People to People group are the work of the Hospitality and Brother-Sister Committees. The membership in the IRC has not decreased since the organization of the People to People group. The membership in IRC is 70 members.

Ten or eleven colleges in Kansas have the People to People group on their campuses and it is also in colleges in other states.

RECOMMENDATION: Dr. Kinsinger moved that the Senate approve the application of the People to People group. Seconded.

AMENDMENT: Mr. Spomer recommended that the motion be amended to be contingent upon the receipt of the constitution and the list of members. Seconded and carried.

RECOMMENDATION: It was recommended that the motion be approved as amended, i.e., that the application of the People to People group be approved contingent upon the receipt of a copy of the constitution and list of the members. Seconded and carried.

New Course--Social Science Division. The application for the course 192 Industrial Sociology, was presented. The description of the course is as follows: A study of the development of modern industry; the factory, the social system of the factory; the social roles of workers, management, and owners; and the relation between the work group and the community.

The course, Rural Sociology, has been dropped. There is a need for the course in Industrial Sociology and at present none is offered in this area.

Mr. Witt explained that this course might be called the sociology of work. It was asked why Rural Sociology was dropped. Mr. Witt said that the research in rural sociology has practically ceased. Emphasis and research are being done on the shift to industry, people moving into cities, etc.

RECOMMENDATION: Mr. Spomer moved that the course 192 Industrial Sociology be approved. Seconded and carried.

New Courses--Business Data Processing. Copies of a proposed curriculum for a two-year program in Business Data Processing was presented. This would be a terminal program although some students might complete work for a degree. This is an area, i.e., a degree program, which will require further investigation. The three new courses would be 7 Data Processing Mathematics, 3 cr. hrs; 3 Basic Computing Machines, 2 cr. hrs; and 4 Electro-Mechanical Machines, 5 cr. hrs. These are the three new courses needed in the first enrollment and would be open to freshman students.

Since the pre-enrollment is Saturday, May 11, the program is presented at this time so that the advisors may be aware of the program and the courses in which students might enroll. The machines for the Data Processing will be installed in C209 and will be used for campus data as well as the program. The program was discussed. The course, Communications Skills I (English 1) would be required in the first enrollment which would make a total program of 13 credit hours. The program was discussed.

RECOMMENDATION: Mr. Slechta moved that the Senate adopt the Data Processing courses. Seconded and carried.

The meeting adjourned at 5:10 p.m.

John D. Garwood, Chairman

S. V. Dalton, Secretary

Florence Bodmer, Recorder
