FHSU Alumni Association is Seeking Participants for Tiger Mentors Program

Do you know a student with a strong interest in connecting with an alumni mentor? Do you know an alum that would be an excellent mentor? FHSU faculty and staff are encouraged to contact the alumni association with names of individuals who could benefit from being a part of Tiger Mentors. Tiger Mentors connects students of at least a sophomore standing, interested in a mentoring relationship, with a FHSU alum. Students will be matched based upon their future career plans, background, experiences and goals. This program allows students to make a one-on-one connection that will prepare them for life after college by focusing on career-readiness, networking and other career-related skills that are not taught in the classroom or through currently available co-curricular activities.

To participate, students must complete an application, participate in training and make a commitment to the program. Alums are also required to complete an application, participate in training and complete background checks.

If you are interested, go to www.goforthaysstate.com/mentor to complete an application. Or if you know someone who may be interested, please send us their name and we would be happy to contact them or just direct them to the application site. This program is expected to start Fall 2018 so applications will be accepted throughout the summer. If you or they have specific questions, please contact the alumni office at 785-628-4430 to speak to Charlene Nichols or send an email to mentoring@fhsu.edu.

Hoonuit (formerly Atomic Learning)

The platform known as Atomic Learning is undergoing a branding change. Over the next few weeks, you will see Hoonuit in place of Atomic Learning in Blackboard, Tiger Tracks, and anywhere else you may have originally accessed Atomic Learning.

Hoonuit functions quite similar to Atomic Learning. However, Hoonuit adds a level of engagement to the videos that comprise the lessons. For more information on how Hoonuit differs from Atomic Learning, you can check out our article over the transition using the following link to the TigerLearn

Blog: <http://tigerlearn.fhsu.edu/hoonuit-formerly-atomic-learning/>.

Call for Nominations for the 2018 Award for Outstanding Undergraduate Scholars

<https://fhsu.infoready4.com/#competitionDetail/1769884>

The Undergraduate Research Experience (URE) Steering Committee is seeking nominations from faculty and staff for the annual FHSU Award for Outstanding Undergraduate Scholarly Activity.

The URE Steering Committee offers this prestigious award to recognize undergraduate students who exemplify scholarly activity. Qualities that make a student successful in scholarly activities characterize those same qualities FHSU seeks to develop in students: original thought, creative ideas, communicating with professional colleagues, critical reasoning, analysis of research, translation of evidence into practice, and first-hand knowledge of how work is performed within a professional discipline.

The URE Steering Committee will provide five awards, one for an outstanding undergraduate student from each college. Nomination letters can come from FHSU faculty or staff, and should be submitted no later than **March 16, 2018**. Any FHSU undergraduate student--including KAMS and Virtual College students--is eligible. The research project may be from the award year or past years; however, the student must have been an undergraduate student for a minimum of one semester during the 17-18 academic year. The nomination letters should describe the scholarly qualifications and products of the student--for example, published papers, professional presentations, on-campus research activities, musical/artistic performance, or other novel scholarly activity. The nomination should clarify the role of the undergraduate student in the scholarly activity. Nomination letters should be submitted to <https://fhsu.infoready4.com/#competitionDetail/1769884>.

Winners will be recognized at the URE Scholarship reception on April 10, 2018 during Undergraduate Research Week.
