ANNOUNCEMENTS

[Updates for Scantron Bubble Sheet Scanning and Reporting](#)

The standalone scanner that Teaching Innovation and Learning Technologies previously used to scan test sheets has reached its end of life. We have used this as an opportunity to streamline the scanning process by adopting an updated version of the software used to create reports. The two steps that will impact faculty scantron users are as follows. **First, faculty will no longer have to pick up testing sheets from the TILT office.** The new software will utilize new forms that do not need to be specially printed. You will be able to print your own test sheets by downloading the PDF and printing the exact number you require at the following URL: <http://tigerlearn.fhsu.edu/wp-content/uploads/200-Question-Form-Remark.pdf>. For any exam please use the new sheets. **If you still have the original testing sheets they will no longer work since they cannot be scanned in our multifunction printers.**

Second, the new software allows you to utilize the multifunction printers in your departments faculty to scan finished exams. Once scanned you only need to email us the resulting PDF document to Tigerlearn@fhsu.edu. **There will be no need to carry the physical sheets to Tomanek Hall for processing.** The linked tutorial explains the process: [Scan and Email Exams](#).

Finally, the new software reads any marks on testing forms, eliminating the requirement for #2 pencils. However, it may make sense to continue requiring the use of #2 pencils since marks created in pen will not be easy to erase.

Please let me know if you have any questions or would like us to walk you through the process. On a related note, many faculty have had great success transitioning to Akindi. Michell Van Der Wege, from the Nursing Department gave a great demonstration at Professional Development Day. [Follow this link for more information.](#)

Request for Proposals for the Brewology Pilot Project

The Brewology Project seeks to engage undergraduate students in meaningful and authentic research, scholarship and creative (RS&C) activities under faculty supervision in partnership with local businesses (breweries).

The project seeks to provide a novel opportunity for undergraduate students to assist them in acquiring RS&C skills. Participating students will be able to learn and demonstrate “real world” competencies and skills.

Possible activities could include but are not limited to:

- Water profile testing and treatment
- Yeast cell assessment and gram staining
- ATP swabbing
- Lab testing of samples
- Market research, marketing strategies and social media
- Creating logos, packaging and branding
- Grains and hops and different outcomes
- Historical perspective of brewing and beer
- Communication campaigns regarding the responsible use of alcohol
- Investigating craft brewery trends and business models
- Developing a new craft beer

Both Gellas and Defiance have agreed to partner and will be involved in the selection of projects. We are particularly interested in interdisciplinary projects, although this is not a requirement. Project timelines are OPEN (not restricted to the academic year), and multiyear projects will be considered. Applications are due November 1.

Want to learn more? Attend the information session in the Memorial Union Trails Room from 11:30 -12:30 on Monday September 10. Representatives from Gellas and Defiance will also be available to answer questions. Contact Leslie Paige for more information.

The application is available at <https://fhsu.infoready4.com/#competitionDetail/1775914>.

Honors Course Proposals Deadline

The Fort Hays State University Honors College is now accepting Honors Course Proposals for the Fall 2019 Academic Semester.

The Honors College is looking for exceptional faculty to teach courses to outstanding students on campus. Participating in one of the university’s Programs of Distinction is a chance to expand learning opportunities for students, as well as experiment with new strategies in and out of the classroom.

While FHSU strives for academic excellence in all classes, at the heart of a successful honors program is the unique interaction between teacher and student made possible by the opportunities in an honors course. Intellectual challenge is supported by pedagogy that stimulates students to think about topics in new ways, explore subject matter in greater depth or breadth, and gain first-hand exposure to issues through experiential learning. Quality is valued over quantity through rigorous and deeper course work that provides opportunities not available in tradition courses. Interactivity is not only gratifying in an honors course, but central to its success whether a debate, discussion, or connection outside the classroom.

The deadline for all Honors course proposals is **October 5th, 2018**. The application form, as well as more information about the process and examples, can be found at <https://www.fhsu.edu/honors/Resources-and-Forms/>. All applications can be emailed to Jensen Scheele, Honors College Administrative Specialist, at jnscheele@fhsu.edu.

If you have any questions about Honors Courses, please feel free to contact Dr. Carol Patrick at clpatrick@fhsu.edu or 785-628-4406.
