3 Minutes With: Dr. Beth Walizer and Ilos

The Tiger Learn Blog is excited to announce a new episode of the new series 3 Minutes With. In 3 Minutes With, faculty at FHSU take center stage and demonstrate how they have used different tools to assist in their courses and further engage students. In this edition of 3 Minutes With, Dr. Beth Walizer, Professor of Teacher Education, demonstrates how she used ilos (which is now called VidGrid), TILT’s video platform.

You can watch the new 3 Minutes With at the following link: <http://tigerlearn.fhsu.edu/3-minutes-with-dr-beth-walizer-ilos/>

Security Awareness Training Starts October 1

It’s almost time for our annual security awareness training! We will once again utilize Securing the Human by SANS, but we made several changes based on feedback from last year.

Quick facts for everyone:

- **Training will open on October 1 and is due on November 30.**
- **Training is shorter this year!** If you have completed the full set of modules once, then you will be assigned a shorter list of modules for this year's training.
 - First-time training: 44 minutes of videos, plus 2 quiz questions per video
 - Repeat training: 24 minutes of videos, plus 2 quiz questions per video
- **The interactive modules aren't being used this year.** They caused issues for too many people.
- **Training will include staff, faculty, adjunct faculty, virtual college faculty, temporary staff, student employees, and graduate assistants.**
 - **Some temporary staff are exempt** because they don't use computers at work and don't have FHSU email addresses. If you think you have employees that fall into this category, let's talk. I already excluded Senior Companion/Foster Grandparents, Encore show workers, and UPOL parking attendants.
- **I'll send out more info in the next couple of weeks.**

Student employee supervisors: If your student employee or graduate assistant has a student employee TigerNetID (username ends in .se), then they will be required to complete training. They will go through the first-time training (44 minutes of videos, plus 2 quiz questions per video).

Department chairs and admin assistants should have received an email from securityawareness@fhsu.edu with directions for exempting adjunct and virtual college faculty who are not currently teaching.

If you were hired in the last year and completed your initial training, you will still need to complete annual training during October or November. The annual training is shorter, and the content for most of the modules has been updated.

Updates for Scantron Bubble Sheet Scanning and Reporting

The standalone scanner that Teaching Innovation and Learning Technologies previously used to scan test sheets has reached its end of life. We have used this as an opportunity to streamline the scanning process by adopting an updated version of the software used to create reports. The two steps that will impact faculty scantron users are as follows. **First, faculty will no longer have to pick up testing sheets from the TILT office.** The new software will utilize new forms that do not need to be specially printed. You will be able to print your own test sheets by downloading the PDF and printing the exact number you require at the following URL: <http://tigerlearn.fhsu.edu/wp-content/uploads/200-Question-Form-Remark.pdf>. For any exam please use the new sheets. **If you still have the original testing sheets they will no longer work since they cannot be scanned in our multifunction printers.**

Second, the new software allows you to utilize the multifunction printers in your departments faculty to scan finished exams. Once scanned you only need to email us the resulting PDF document to Tigerlearn@fhsu.edu. **There will be no need to carry the physical sheets to Tomanek Hall for processing.** The linked tutorial explains the process: [Scan and Email Exams](#).

Finally, the new software reads any marks on testing forms, eliminating the requirement for #2 pencils. However, it may make sense to continue requiring the use of #2 pencils since marks created in pen will not be easy to erase.

Please let me know if you have any questions or would like us to walk you through the process. On a related note, many faculty have had great success transitioning to Akindi. Michell Van Der Wege, from the Nursing Department gave a great demonstration at Professional Development Day. [Follow this link for more information.](#)

Honors Course Proposals Deadline

The Fort Hays State University Honors College is now accepting Honors Course Proposals for the Fall 2019 Academic Semester.

The Honors College is looking for exceptional faculty to teach courses to outstanding students on campus. Participating in one of the university's Programs of Distinction is a chance to expand learning opportunities for students, as well as experiment with new strategies in and out of the classroom.

While FHSU strives for academic excellence in all classes, at the heart of a successful honors program is the unique interaction between teacher and student made possible by the opportunities in an honors course. Intellectual challenge is supported by pedagogy that stimulates students to think about topics in new ways, explore subject matter in greater depth or breadth, and gain first-hand exposure to issues through experiential learning. Quality is valued over quantity through rigorous and deeper course work that provides opportunities not available in tradition courses. Interactivity is not only gratifying in an honors course, but central to its success whether a debate, discussion, or connection outside the classroom.

The deadline for all Honors course proposals is **October 5th, 2018**. The application form, as well as more information about the process and examples, can be found at <https://www.fhsu.edu/honors/Resources-and-Forms/>. All applications can be emailed to Jensen Scheele, Honors College Administrative Specialist, at jnscheele@fhsu.edu.

If you have any questions about Honors Courses, please feel free to contact Dr. Carol Patrick at clpatrick@fhsu.edu or 785-628-4406.
