Kansas Undergraduate Research Day at the Capitol

We are now accepting 250-word abstracts for the February 20 Kansas Undergraduate Research Day at the Capitol!

We are pleased to announce the launch of the 2019 Undergraduate Research Day at the Capitol competition. Click on the [link](#) to view more information.

- Deadline: January 31, 2019
- Discipline/Subject Area: Any

The Kansas Undergraduate Research Day at the Capitol event is an opportunity for students to present their research experiences with state lawmakers in Topeka scheduled for Wednesday, February 20, 2019.

This event will showcase the work of up to 40 Kansas undergraduate students representing each of the state's eight public 4-year institutions. The purpose of this event is to demonstrate the unique opportunities undergraduate students have to participate with faculty members in research at all state institutions. This event will also emphasize higher education's role in developing educated citizens and preparing a workforce with the necessary skills to further the economic growth of the state.

Undergraduate students who have been significantly involved in the research enterprise of the university either with their own project or through meaningful involvement with a faculty project are desired as participants. To qualify for this event, participants must:

- be undergraduates during the 2018-2019 academic year;
- have completed research under the guidance of a Kansas 4-year public institution faculty mentor;
- follow the methodology of the appropriate academic discipline;
- be of sufficient quality to be presented at a professional academic meeting;
- have the skills, resources, and capacity to produce a professional academic poster;
- agree to undergo presentation training and rehearse their presentations prior to the Capitol event.

Participants should be able to convey their experience and enthusiasm to state representatives, senators, and other state officials in a poster session. Projects from a broad range of disciplines are encouraged - especially posters that relate to the

state of Kansas and issues important to the state legislature (e.g. education, health, agriculture, aviation, biotechnology, energy, transportation, manufacturing, environment, and social services). Up to 5 projects will be selected from each institution.

Lunch and transportation will be provided. The event will take place on the first floor of the Capitol Rotunda from 10 am to 1 pm. The public is invited to attend. Selected participants will receive additional information regarding the event.

Submissions are accepted from student teams, however only two students from the team will be able to go to the Capitol. One designated student should be listed as the Principal Investigator. The entire research team will be recognized in the program booklet and related materials.

This event will not be an adjudicated poster competition with prizes. All participants will be recognized equally for the honor of participating in this event.

Helpful resources for creating posters may be found at <http://www.fhsu.edu/academic/gradschl/ure/URE-Poster-Tips/>.

“...about the night soul”

Works by Chopin and Schumann

Tuesday, November 13, at 7:30 in Beach/Schmidt Performing Arts Center

Free Admission

Night has always been the source of great artistic inspiration and with its mysterious appeal has fascinated the most important musicians, especially in the romantic period, so they have composed immortal works particularly roused by nightly sensations.

Night can recall the quietness of a postcard-like moonlight, but it is above all a space-time of the mind, where passions, remembrances, emotions and even nightmares intertwine and move our souls. This magical involvement will come out with the recital titled “...about night soul.”

Marco Tezza is a pianist, a conductor and a well-known teacher much sought-after all over the world.

Ceramics Classes

Would you like to explore or expand your creativity in a dynamic, interactive class? Consider taking a class in Ceramics next Spring.

The foundation class Art 260: Ceramics I is offered at 10:30 am – 12:20 on Monday, Wednesday, Friday. This class features Creation Stations designed to build hand skills, followed by Deep Studio Time, allowing students to use the skills they learned in a more in-depth project. Ceramics Designed for Life introduces functional pottery, industrial products such as cell phone holders, and ceramic objects designed to enhance an interior. Ceramics as Expression begins with mask making, then moves into solid sculpting and hollow forms before students engage the Deep Studio Experience. Finally, experimental projects explore the properties of clay, glaze and firing to produce unexpected results.

Art 360: Ceramics II focuses on the skill of throwing on the Potter's Wheel. Inspired by their favorite foods, students learn to create vessels to enhance their favorite dishes. Near the end of class, students will learn to stage and take photographs of their pots in action and develop a class cookbook. Then we eat our props. This class meets at 4:30 – 7:20 pm on Monday and Wednesday.

There are no pre-requisites for either class, as both classes start with the basics and work to develop more advanced skills. You don't need to be an Art and Design major to enroll or benefit from this creative experience. All skill levels are welcome. A studio fee covers tools and materials.
