### **25Live Room Reservation System will be Available Monday, April 1!**

We are excited to announce the launch of our new campus-wide room reservation system, 25Live! This new system replaces our previous EMS reservation system and will be available campus-wide beginning, Monday, April 1<sup>st</sup>. 25Live enables event planners, academic schedulers, and room requestors to search dates and locations and schedule FHSU rooms. 25Live facilitates posting of events to FHSU's web calendars, and the software is fully hosted, which means you can access it from anywhere!

#### **How do I access 25Live?**

Starting Monday, April 1, visit <https://25live.collegenet.com/pro/fhsu> and login with your TigerNetID credentials.

#### **What rooms can I request with 25Live?**

General academic classrooms can be requested online using 25Live. Memorial Union rooms and availability can be viewed in 25Live, but rooms cannot yet be requested in 25Live. A feature that is essential to the Union's room reservation process is

currently in development with 25Live. Once that feature is released, the Union's rooms will be available to request in 25Live. We are also adding conference rooms to 25Live. If you would like your conference room or other space added to 25Live, visit <https://fhsu.edu/tigertech/25live> for more information.

### **Will I need to resubmit reservations that were made in EMS?**

No. All future events that were booked using EMS have been imported into 25Live. You will not need to resubmit any events that were previously made in EMS.

### **University Calendar**

The University calendar has also been replaced with the 25Live calendar. Requests for event placement on the University calendar can be made during the event creation process. See the 25Live user guide for more details:

### **TILT Tip: Knowledge Series - Prologue**

Scholars in education expressed extensive interests in learners' problem-solving skills, and many have considered it to be an important measurement of learning outcome. For example, Gagné and Brown (1961) mentioned the learners' ability to applying concepts learnt towards solving new problems. Mayer (2004) stated that "learning can be measured by tests of retention and transfer". John Anderson (1982) claimed skills acquisition, especially problem-solving, are built on the foundation of declarative and procedural knowledge. In the coming weeks, we will talk about the different types of knowledge.
