#### **25Live Room Reservation System is Now Available**

We are excited to announce the launch of our new campus-wide room reservation system, 25Live! This new system replaces our previous EMS reservation system and is now available campus-wide. 25Live enables event planners, academic schedulers, and room requestors to search dates and locations and schedule FHSU rooms. 25Live facilitates posting of events to FHSU's web calendars, and the software is fully hosted, which means you can access it from anywhere!

### **How do I access 25Live?**

Visit <https://25live.collegenet.com/pro/fhsu> and login with your TigerNetID credentials. Faculty, Staff, and student employees (with their .se account) have access to use 25Live.

### **What rooms can I request with 25Live?**

General academic classrooms can be requested online using 25Live. Memorial Union rooms and availability can be viewed in 25Live, but rooms cannot yet be requested in 25Live. A feature that is essential to the Union's room reservation process is currently in development with 25Live. Once that feature is released, the Union's rooms will be available to request in 25Live. We are also adding conference rooms to 25Live. If you would like your conference room or other space added to 25Live, visit <https://fhsu.edu/tigertech/25live> for more information.

### **When can I attend training to learn how to use 25Live?**

Stop by any of the below training sessions (no need to register), or access our user guides on the website:

## **TILT Tip: Knowledge Series – Factual Knowledge**

In the revision of Bloom's Taxonomy, (Krathwohl, 2002), factual knowledge is the simplest form of information, for example, symbols, numbers, words, dates, events, terms, and definitions. Because the learning of factual knowledge is often a process of remembering basic facts and information, suitable assessment activities include: asking learners to recall, recognize, or identify the relevant information. In traditional education, assessments of factual knowledge employ test items such as true-false, matching, or fill-in-the-blank questions.

## **FHSU Graduate Student to Present Thesis Research at KWEC**

**Sunday, April 7; 2:00pm**

**Kansas Wetlands Education Center, Great Bend**

Katya Frank, a Fort Hays State University graduate student, will present part of her graduate thesis research to the public at 2 p.m. on Sunday, April 7, at the Kansas Wetlands Education Center in Great Bend.

Frank, Green Spring, Wisc., spent last summer bird watching at 25 shelterbelts at Webster Wildlife Area in Rooks County and Wilson State Park and Minooka Park in Russell County. In total, she recorded 58 species of birds.

Shelterbelts are hotspots for wildlife in Kansas, and birds use them for migration, shelter, mate attraction, food resources and nesting.

Frank compared characteristics of shelterbelts to identify what influences the total number of bird species that are in the community.

Frank has a Bachelors of Science in biology from the University of Wisconsin-Platteville, and is now pursuing a Master of Science in biology from FHSU. She currently has a graduate wetlands assistantship at KWEC. Her goal is to pursue a career in environmental education after graduation.

The presentation is free and open to the public.

KWEC is located 10 miles northeast of Great Bend, 592 NE K-156.
