ANNOUNCEMENTS

[Establishing a Norm of Intonation – Research Conducted by Dr. Li](#)

One of the CSD professors, Dr. Li, is conducting research to establish a norm of intonation. If you are between 18 and 30 years old, without any previous or current neurological diseases, you are invited to participate in this research project. If you participate, you will be asked to read an English paragraph. We will audio record your reading in Albertson Hall. The audio of your reading will be analyzed for intonation patterns to establish the norm. The norm from this research will help a lot of people who have speech difficulties. The whole process will take 15 to 30 minutes.

If you are interested, please fill in the following form, providing us with TWO possible participation times between June 3rd and July 29th. After you sign up, we will provide you with more details. Thank you for your help!
