Public Safety Advisory: Surviving an Active Shooter Event

In light of recent mass active shooter tragedies in El Paso, Texas and Dayton, Ohio, I'm sending out a reminder of Fort Hays State University "[Active Shooter Safety Guidelines](#)". Since most incidents are over within minutes, students, faculty, and staff must be prepared to react to the situation until first responders arrive. In an active shooter situation, you should quickly determine the most reasonable way to protect your own life. You should:

1. **Run:** If there is an accessible escape path, attempt to evacuate the premises and go to a place of safety and call 911.
2. **Hide:** If evacuation is not possible, find a place to hide where the active shooter is less likely to find you.
3. **Fight:** As a last resort, and only when your life is in imminent danger, attempt to disrupt and/or incapacitate the active shooter.
4. **Resources:** Refer below for more detailed information on surviving an active shooter event.
