1. Approval of Minutes of Prior Meeting
   1a. November 5, 2002 minutes (see Attachment A) and sign-in roster (see Attachment B)
       Senator Goodlet moved to accept, Senator Neil seconded. Minutes approved with corrections (see corrected minutes).

2. Announcements and Information Items (no action required)
   2a. Presentation by John Ross, Director of the Forsyth Library
       John Ross outlined how the library improvement objectives tied into AQUIP 5th Goal. John also discussed what new equipment was purchased and how it matches up with what instructors are doing in the classroom. The formula for how book monies were distributed by department, and how reallocations per department are calculated (see attachment L1) were outlined.
       Lynn Haggard – Public Service, Outreach, and Bibliographic Instruction Classes (see attachment L2)
       Nona Barton – Distance Learning and what materials are purchased as well as the serials and journals are selected (see attachment L3).
       Senator Drabkin suggested instead of sending a list of what journals are currently in stock, it would be a good idea to circulate a list of journal titles that might be of interest to department.
       President Heinrichs asked about electronic journals and how that might impact the library. Nona Barton suggested faculty members send information to library.
       Patty Nicholas – talked about the digital library project (see attachment L4 and L5).
       Suzanne Araas Vesely – introduced herself and discussed copyright issues (see attachment L6).

2b. Information from the Kansas Board of Regents
   - Continued discussion of processes for coordination vs. governance
     President Heinrichs reminded everyone that governance is what the Regents use to coordinate the 6 regents institutes, while coordination deals with all areas of higher education in the state.
     - COFSP: proposal for Regents-level faculty award program
     One would be for junior or untenured faculty, while another would be for senior or tenured faculty.
     President Heinrichs said that Faculty Senate would be in charge of selecting those nominees.
   - Request from Regents
     Based on questions presented at last meeting, one of the Regents wanted to know what would improve the moral of faculty on campus (not counting salaries).
     Some suggestions included:
       o More social functions for the faculty
       o Tuition waivers for spouses and dependents and having that tuition waiver be applicable to any institution in the state.
       o Would like to have more interactions with the Regents
       o Pep talk from the Regents who come to campus to talk directly with the faculty
       o Improve diversity on campus
       o Letter of service for those who serve on campus committees

2c. President’s Cabinet
   - Grades due one day earlier this semester (by noon on Sunday, Dec. 22)
     President Heinrichs thanked everyone for their feedback on the change in the due date for grades.
     President Heinrichs explained how the change came about and why it may be a challenge for some departments. Heinrichs reassured the senate that this was a one time change to the grade due date.
     Provost Gould also mentioned that this is being done not to make life difficult, but to ensure students who received financial assistance would get the necessary information before year’s end.

- **Resolution 103_008**: The Faculty Senate recommends that students pursuing or graduating with a Bachelor of General Studies (BGS) degree be counted towards the numbers of majors and graduates for the department in which their concentration area lies. Recognizing that the 21-hour BGS concentration requirement is lower than the number of hours usually required for a major, the Senate recommends that each BGS student pursuing or graduating in a department’s concentration be counted 1/3 as much as a graduate in the major. The Faculty Senate also recommends that means be provided for departments to market concentrations in their disciplines to all students, in particular off-campus students.

Discussion on this resolution revolved around how/why the BGS students are being counted as 1/3. Discussion also was concerned about including Minors in the count.

**President Heinrichs** mentioned that the intent is to protect programs from being terminated by stimulating departments to offer concentrations for BGS students.
