TILT Resources, Tips, and Support

Our move to remote teaching and learning has led to an increased usage of the Zoom conferencing platform. If you are using, or planning to use, Zoom please make sure to use the FHSU enterprise version. It is much more full-featured than a basic Zoom account. Here is a short video on how to access FHSU Zoom vs. free Zoom. <https://use.vg/E5CGAB>

As Zoom has become more popular, we need to take steps to keep hackers from disrupting our class meetings. Zoom has taken steps to enable more stringent privacy settings. These settings will be in effect when you schedule any new Zoom meetings. Here is a link that demonstrates how to change meeting settings. <https://youtu.be/XhZW3iyXV9U>

Here is a Zoom blog post that outlines [Best Practices for a Virtual Classroom](#).

TILT continues to develop and share resources in support of remote course development and delivery. Please visit our webpage on teaching remotely <https://www.fhsu.edu/learningtechnologies/facilitating-class-remotely/>.

On that webpage we have provided links to all TILT member calendars so you can make appointments with each of us as necessary.

We have also introduced a short course (asynchronous) on Remote Teaching and Learning. The focus of this short course is on providing you with tools and strategies for moving your courses online. https://forthaysstate.curatr3.com/courses/remote_teaching/home
