My-Heart Youth Screenings

Get the peace of mind and protect your child with a comprehensive heart assessment August 1st at the My-Heart Youth Screening hosted by the Department of Allied Health and the Diagnostic Cardiac Sonography Program.

Approximately 40,000 babies are born each year with a heart defect, and many go undiagnosed. Those certain children with untreated congenital or genetic heart conditions are at a high risk of sudden cardiac arrest, especially while participating in a sporting event. This heart screening could possibly uncover a dangerous heart conditions that may have been non-symptomatic thus far.

A heart assessment includes an EKG and Echocardiogram (heart ultrasound) designed to find heart abnormalities that won't be found by a sports physical, standard check-up or EKG only screening. Get the whole view of your child's heart health with a 30 minute heart check!
