Re: Sheridan Coliseum Renovation

I am sure that most of you are aware that Phase 2 of the renovation of Sheridan Coliseum is in full swing. No doubt you have seen considerable activity recently with the number of workmen and pieces of equipment that now occupy the site. I know that this activity generates excitement and curiosity.

I have been informed by the General Contractor that several faculty and staff members have been seen wandering through the building unattended. **This cannot and will not be permitted.**

Safety is of prime concern as there are many potential dangers associated with the work currently taking place. The General Contractor is liable for the safety of personnel on site, and can be cited or fined for safety infractions such as persons not wearing hard hats.

If you have an interest in seeing the project, please contact me at 4424 and I will try to make some arrangements.
