Tuesday TILT Tips: Improve Students Writing Before the Final Paper Submission

Providing an opportunity to get feedback before submitting the final paper is one of the effective ways to improve students writing.

However, it can be time-consuming for the faculty. Currently, an automated feedback tool is available through the Blackboard building block. It gives students instant feedback on the quality of academic writing in assignments, thesis, and other deliverables. By receiving and processing direct inline feedback, students can improve their academic writing skills and become

responsible for their own learning

process. <https://documentcloud.adobe.com/link/review?uri=urn:aaid:scds:US:b5f43921-19e9-4e0d-8bf3-3ca2592cd6e0>

Additionally, determined is how leaders make significant, sustainable changes utilizing communication abilities, envisioning, conflict management skills, servant leadership, and innovative DEIB initiatives.
