MEMORANDUM

TO: Dr. Stephen Jordan

FROM: Dr. Edward H. Hammond, President

DATE: August 19, 1994

SUBJ: AGENDA ITEMS FOR SEPTEMBER 1994 MEETING OF THE KANSAS BOARD OF REGENTS

Fort Hays State University has three agenda items for the September 1994 meeting:

1. Fort Hays State University seeks permission to name the new physical science building which will be dedicated in May 1995.

The University seeks permission to name the physical science building in recognition of Dr. Gerald W. (Jerry) Tomanek. Dr. Tomanek served as President of Fort Hays State University from 1975 through 1987. During his tenure as President, Fort Hays became a university, established two new academic schools, won two national championships in basketball, and established the groundwork to save historic Sheridan Hall. Dr. Tomanek is a nationally recognized expert in grass-land management and was recognized as "Kansan of the Year" by the Native Sons and Daughters of Kansas in 1978.

(A summary of Dr. Tomanek's accomplishments will be mailed.)

2. The University seeks permission to demolish McGrath Hall. The University has studied renovation of this residence hall into office space, apartment housing, and for other uses. Unfortunately, it is not financially feasible to renovate the facility and the University seeks permission to use housing fees to demolish it.

(Backup documentation will be mailed.)

3. The University seeks permission to move forward with the construction of apartment style student housing.

(Backup documentation will be mailed.)

If there are any questions regarding these items, please call my office.

MEET DR. GERALD W. (JERRY) TOMANEK (pronounced "ta-man-ek)

- * B.A. degree in botany at FHSU, 1942
- * M.S. degree in botany at FHSU, 1947
