Mr. Edward H. Hammond
President
Fort Hays State University
600 Park Street
Hays, KS 67601-4099

Dear Ed:

My tour of Fort Hays State was very helpful. I can now make a convincing, even moving, case for a new physical science building at Fort Hays State.

Senator Dole is behind this project 100%. If the Energy and Water Subcommittee is cooperative, I think you will be in good shape. Last year, the Subcommittee was not that helpful, so I think this year they owe the Senator one.

I don't have any suggestions on how you might vary your strategy, because I think you've done a good job so far. Frankly, your willingness to match federal funds with private and state money has put some other (wealthier) Kansas universities in a bad light. If you are able to raise this much money privately, your school will set a new standard.

Again, thanks for your help.

Sincerely,

Kathy
