5629 Barrington Ct. South, Suite A
Topeka, KS 66614

Dear Pete:

Thank you for your attendance at the June 12 press conference and the fine work you have done on the new Fort Hays State University physical sciences building. We were very proud to reveal the scale model replica of the proposed plan.

I am grateful for your responsiveness to our requirements and for doing such an outstanding job of designing a structure that will incorporate state of the art technology throughout the building. Your design will play an important part in the future of our students, the state of Kansas, and the local economy.

We look forward to our continued relationship.

Sincerely yours,

Edward H. Hammond
President
