LIBRARY DEPARTMENTS, STAFF, AND DESCRIPTIONS

ACQUISITIONS

Jean Wesselowski
Sharolyn Legleiter (morning)

The Acquisitions Department is responsible for maintaining the financial records for the library. Acquisition employees create purchase orders for library materials, unpack books, work with invoices and make payments using the library’s automated software system.

ADMINISTRATIVE OFFICES
(785) 628-4431

John Ross, library director
Janice Basgall, library office administrator

This area deals with daily administrative functions of the library. Payroll for all staff and part time employees are handled here. Money is collected from library copiers and deposits are made to the Business office. This area works closely with Financial Aid because of the large size of our student workforce.

Jerry Wilson
Jennifer Sauer (1/2 time)

The Cataloging Department is responsible for the basic data entry of information into the library’s online catalog. The physical processing of materials, which includes the creation and placement of labels, placement of bar codes and property stamps, and the attachment of security strips, also takes place in this department.

(785) 628-5586 – exit desk (lobby)

The Circulation/Reserve Department is where items (both general collection and reserve collection) are checked out. This area also has other functions which include: locating material, shelving books and stack maintenance, collect fines and update patron records, assist patrons with photocopiers, and assist library patrons by answering their questions or directing them to someone who can help them.

COPYRIGHT & INTELLECTUAL PROPERTY CENTER

The Copyright & Intellectual Property Center helps faculty, staff, and students understand and apply the concept of “fair use” in ordinary classroom and research settings and in the digital environment. They also offer general information on copyright laws and links to resources for copyrighting your work, getting permission to use copyright-protected materials, and getting published, as well as a service to help you get permission to put copyright-protected material on the web.
Although Forsyth Library has served as a Federal Depository Library since 1926, information held in the Government Documents Department precedes the designation. Government Documents provides a research materials treasure trove for historians or for patrons needing current information offered by government agencies. With information available on almost every subject, the area houses more than 800,000 documents and provides access to compact disc, microfiche, and web-based resources. Forsyth Library also operates a depository for Kansas state documents. It also houses documents from other states as well as information about foreign countries and the United Nations.

INTERLIBRARY LOAN
(785) 628-4351
Sheran Powers

The purpose of Interlibrary Loan is to furnish materials to our students and faculty when they are unable to find what they need in our library. We also loan materials to other libraries for their patrons. Working in Interlibrary Loan involves a lot of searching for and preparing books and copies to be mailed out and checking in materials that are coming to us.
