Minutes of the meeting of the Faculty Senate, Monday, February 15, 1965, at 3:30 p.m. in the Office of the Dean of the Faculty.

Members present: Mrs. Brown, Mr. Cleland, Dr. Edwards, Miss Felten, Mr. Forsythe, Mrs. Hellem, Dr. Nelson, Mr. Osborne, Dr. Rice, Dr. Staven, and Dr. Garwood, Chairman.

Members absent: Mr. Dalton, Dr. Pierson

Others present: Dr. Little and Dr. Moreland

The meeting was called to order by the chairman, Dr. Garwood. The first item for business was the approval of new courses. The information regarding the courses, description, objectives, need, etc., was sent to the Senate members previously. If approved these courses would be offered next fall but probably will not be printed in the catalog. The copy for the catalog is at the printers and these courses could not be included without additional expense.

Economics and Business. The description of the proposed courses are as follows:

Accounting Concepts--Digital Computer. 112. 3 credit hours. Development of accounting concepts in inventory control, quality control, budgets, statement analysis, and interpretations for decision making by the use of the digital computer.

Mr. Osborne explained that students taking jobs should have a better understanding of the computer. This is a very specialized course and would be for the top students. It will be restricted to students well advanced in their accounting program. Applicants would be admitted only after screening and it would be expected that the enrollment would be limited to ten or twelve students.

It was asked if the course would be more concerned with the theory or the operation of the data processing machines. Students enrolling for this course would have completed the operation of the data processing machine courses. Dr. Garwood explained that when Malloy Hall is ready, the radio studio will be moved and C208 (the present radio studio) will be used as a classroom for the IBM classes. Enrollment in the Data Processing classes is increasing.

Business Systems and Procedure. 49. 3 cr. hrs. The effective use of data processing equipment and management sciences in meeting the needs of business requires that much skill and knowledge be applied to the development and design of data processing systems.

Dr. Little explained that this is a course in the data processing group and is needed to complete that program.

RECOMMENDATION: It was recommended that the two courses, 112 Accounting Concepts--Digital Computer and 49 Business Systems and Procedure, be approved. Seconded and carried.

Social Science Division. The course, The Presidency, 163, from the Social Science Division was presented. The description of the course is as follows:

163. The Presidency. 3 cr. hrs. The office of the President of the United States and its place in the political, constitutional and administrative system deserves more academic interest. Emphasis will be given to modern experience and current problems.

Dr. Moreland explained that this is a course which has been needed in our curriculum but have not had the staff to teach it. Mr. Tomlinson has been studying in this area at K. U. and will be well prepared to teach it. Most colleges have such a course. The American Presidency is one of the unique contributions of the American experience to political rule and should be examined as such. There are courses in state and local government, municipal government, political parties, public administration and some consideration is given to the judicial branch of government in constitutional law but we have not had a course dealing with the presidency. Such a course would permit us to look at one of the unique institutions of American government.

It was asked if the course would include a study of the entire executive branch of the government.

RECOMMENDATION: It was recommended that the course, 163, The Presidency, be approved. Seconded and carried.

Affiliation with St. Francis Hospital in Wichita for the Medical Technician. At the last meeting a motion to affiliate with St. Francis Hospital for Medical Technician was tabled pending further investigation. Mrs. Hellem reported that St. Francis Hospital was one of the best.

RECOMMENDATION: It was recommended that we consider the motion to table the motion made at the last meeting. Seconded and carried.

The motion made and seconded at the last meeting is as follows:

RECOMMENDATION: It was recommended that we affiliate with St. Francis Hospital in Wichita for the Medical Technician as proposed.

RECOMMENDATION: Carried.

Mr. Schroder will be notified that this has been approved and that he may go ahead with the affiliation.

Probation. At the last meeting it was asked how many of the 220 students who would have been suspended except for the regulation that students are not suspended at the midyear, enrolled for this semester. Dr. Garwood presented the following information:

Of the 220 students on probation, 80 did not enroll.  
140 students did enroll.

The classification of the 140 students is as follows:

	Enrolled	Did not Enroll
Freshmen	26	29
Sophomores	44	35
Juniors	40	9
Seniors	26	7
Grad. & Uncl.	4	0
	140	80

Dr. Garwood appointed a committee to study the probation rules and regulations. The members of the committee are Dr. Rice, Mr. Cleland and Miss Felten. They are to examine the programs of other institutions, the literature in the field, and submit a report of their study and suggestions.

Honor Roll. There were 728 on the Honor Roll in the Fall Semester. Students must be undergraduates and enrolled in 10 hours or more. The following gives the details of the Honor Roll:
