Discussion: New Course Proposals. Courses approved will be carried in new Catalog.

COURSES APPROVED: Education 261,

" " Social Science 45, 84, 160, 170 and 37.

" " Physical Science 175 (175 Chemistry and 175 Physics)

" " Biological Science 55, 67 and 123.

" " Music 43, 44, 11 and 92.

Minutes of the meeting of the Faculty Senate, Tuesday, March 25, 1969, at 3:30 p.m., in the Office of the Dean of the Faculty.

Members Present: Mr. Ginther, Mr. Schroder, Dr. Thomas, Dr. Hamilton, Mrs. Popp, Dr. Sackett, Miss Christopher, Dr. Miller, Dr. Witten, Dr. Oliva, Mr. Dalton, Mr. Finnin and Mr. Kellerman, Acting Chairman.

Members Absent: Mrs. Theis.

Also Present: Dr. W. Clement Wood, Mr. Robert Witt, Dr. Delbert Marshall, Dr. Gerald Tomanek and Dr. Leland Bartholomew.

Dr. Garwood was absent from campus. The meeting was called to order by Mr. Kellerman.

NEW COURSE PROPOSALS. New course proposals had been brought to the Senate in the Fall. The course proposals being considered this afternoon are those which have resulted from changes which have been made since the Fall months. Those courses approved today can be carried in the new Catalog.

EDUCATION. The following course was presented to the Senate by Dr. Wood:

261. Institute in Education. 2 to 8 cr. hrs. Admission by permission only. For individuals who are teachers, supervisors, curriculum coordinators, counselors, administrators, or related school service personnel. The Institute provides advanced study in a designated educational area.

Dr. Wood stated that the Education Department has received a \$30,000.00 grant for this Institute which deals with Early Childhood Education. The Institute is for teachers and supervisors of disadvantaged children who are in the nursery, kindergarten and primary. The Federal grant had not been received when the courses were proposed last Fall.

RECOMMENDATION: It was moved by Mr. Ginther that the course be approved. Seconded by Dr. Sackett. Motion carried.

SOCIAL SCIENCE. The following courses in Social Science were presented by

Mr. Witt:

- 45. Introduction to Anthropology. 3 cr. hrs. An introduction to the fields of physical anthropology, archaeology, and linguistics, analysis of the concepts of society and culture with special emphasis on nonliterate peoples of the world.
- 84. Physical Anthropology. 3 cr. hrs. A course dealing with the biological evolution of man through time and the variations among populations, past and present.
- 160. Advanced Anthropology. 3 cr. hrs. A continuation of the study of anthropological concepts with special emphasis on the various theoretical approaches to the discipline.
- 170. Ethnographic Survey. 3 cr. hrs. This course is a specialized study and investigation in regional anthropological problems.

Mr. Witt said that an addition to the staff is being made in the area of Anthropology.

RECOMMENDATION: It was moved by Dr. Sackett that the four courses proposed be approved.

Motion seconded by Mr. Schroder. Motion carried.

Mr. Witt presented the following course to the Senate:

- 37. Introduction to the Law. 2 cr. hrs. An introduction to American jurisprudence and its historical background. Common law and statutory law, legal bibliography, research and writing, the judicial process, due process of law and the legal profession will be emphasized. For prelaw and political science majors.

This course is designed for freshmen who might be interested in a pre law course but who do not have much information about the material involved.

RECOMMENDATION: It was moved by Mr. Ginther that the course be approved. Seconded by

Dr. Thomas. Motion carried.

PHYSICAL SCIENCE. The following course was presented by Dr. Marshall:

- 175 Chemistry and 175 Physics - Introduction to Spectroscopy. 3 cr. hrs.
(For Seniors in Chemistry and Physics) An introduction to the theoretical and experimental tools of spectroscopy in the infrared, visible, and ultraviolet regions. Selection rules and transitions responsible for absorption and emission in these regions will be studied. Prerequisite: Physics 37 and Chemistry 12.

This course is primarily for juniors, proficiency in calculus is required. It will be available for Physics and Chemistry students and will be listed in both areas.

RECOMMENDATION: It was moved by Dr. Miller that the course be approved. Seconded by Mr. Ginther. Motion carried.

BIOLOGICAL SCIENCE. The following courses in Biological Science were presented by Dr. Tomanek:

- 55. Field Biology. 3 cr. hrs. Identification of native Kansas plants and animals and an introduction to their inter-relationships in nature. Designed to meet the needs of the elementary and secondary teacher (non-biology).
- 67. Economic Entomology - Zoology and Agriculture. 3 cr. hrs. An introduction to the arthropods of economic importance to man; identification, biology, and techniques of control, including principles and mechanics. Prerequisite - Biology 10.
- 123. Microbiology of the Pathogens. 5 cr. hrs. Host-parasite relationships in microbial diseases of man and animals. Basic techniques of isolation, identification, diagnosis of bacterial pathogens. Prerequisite: Microbiology 40 or Bacteriology 50.

Dr. Tomanek said that Field Biology 55 is for elementary and secondary teachers.

Dr. Tomanek said that the course 67. Economic Entomology is a course which the people in Agriculture have felt that their area needs and the need has been there for sometime.

Course 123. Microbiology of the Pathogens is a course which is needed for students interested in medicine and related fields. It provides more information in the area of microbiology.

RECOMMENDATION: It was moved by Dr. Thomas that these courses be approved. Seconded by Dr. Witten. Motion carried.

MUSIC. The following courses were presented by Dr. Bartholomew and Dr. Miller:

- 43. Vocal Diction I. 1 cr. hr. A study of English and Italian diction.
- 44. Vocal Diction II. 1 cr. hr. A study of German and French diction.
- 11. Recital Attendance. No hours credit. Attendance at a prescribed number of concerts and recitals.
- 92. Senior Recital. No hours credit. Recital by student.

Dr. Miller said that courses 43 and 44 were needed because singers are exposed to foreign languages but they do not understand the pronunciation of them.

Dr. Bartholomew said that all full time undergraduate music majors are required to attend a prescribed number of concerts and recitals. Course No. 11 would provide no hours of credit. Dr. Bartholomew said that it was standard practice in departments of music to have a course of this nature. The National Association of Schools of Music, which is the official NCATE agent for accreditation in music, has recommended that this requirement be made into a no-credit course in which the student would receive a grade but no college credit.

Dr. Bartholomew said that various methods have been tried to get students to attend recitals. The Music Division would like to have this course which would give a grade depending upon the number of recitals attended. No credit would be given and no additional staff members would be required. It would be a required course for undergraduates in the area of Music. Students would enroll in this course every semester. The Division of Music would keep a record of attendances at these recitals.

In speaking of course 92. Senior Recital, Dr. Bartholomew stated that all candidates for the degree of bachelor of music are required to present a senior recital. The National Association of Schools of Music, which is the official NCATE agent for accreditation in music, has recommended such a course. Dr. Bartholomew said that such a course is needed so that they could record on the transcript that the student has presented his recital.
